Re: 12/10/19 BoE Meeting Follow-up

In response to questions raised at the 12/10/2019 BoE meeting, Mr. Papageorge has provided the following information:

1. The new roof warranty at Osborn Hill will cost approximately \$10K.
2. The WFC contingency is \$1,533,299.45. A majority of that is to cover any unforeseen structural issues with the roof.
3. As requested, we are working on a separate proposal to have a structural engineering analysis completed at WFC, which will include a plan for air conditioning. We believe we can cover the cost of the structural engineering analysis. If the estimates are higher than anticipated, however, we may need to add it to the capital project request.
4. The WFC funding request, which includes the building purchase and renovation, can remain as a single request for advancement to Town bodies. A detailed worksheet will provide information that the state will use to determine eligible and ineligible expense reimbursement.
