STUDENT ONE-TO-ONE DEVICE INSURANCE PROGRAM

5143.3

The Board of Education offers an insurance program for students participating in the District's one-to-one digital learning device program.

The annual fee for the student one-to-one device insurance program shall be reviewed and approved by the Superintendent prior to the start of the school year. The fee will be posted on the Fairfield Public School's website: fairfieldschools.org.

The insurance program will cover repairs or replacement of damaged equipment resulting from normal use. Intentional, willful, or purposeful damage will not be covered.

If the theft or loss can be considered a covered loss under a parent or guardian's personal insurance policies, the district will request reimbursement to the school district for the value of the device and/or charger.

The Superintendent or his or her designee may grant a waiver of the fees based on financial hardship.

If a student is not enrolled in the student one-to-one device insurance program, and has not been approved for a waiver of the fee by the Superintendent, that student and/or his/her parent(s) or guardian(s) will pay the full replacement cost of a device and/or charger lost or damaged beyond ordinary wear, regardless of the reason.

Administrative forms to support the implementation of this policy will be developed and reviewed periodically by the Director of Information Technology.

Adopted 7/14/2020
