However, under the circumstance, children may attend local schools with tuition paid by the home district unless special education considerations make attendance in local schools and programs inappropriate. Children not requiring special education who live in town as a result of placement by a public agency (other than another Board of Education and except as provided otherwise in this paragraph) are resident students; those requiring special education may attend local schools (with special education cost reimbursements in accordance with statutes) unless special education considerations make attendance in local schools and programs inappropriate.

B. Superintendent Approval: Non-residents without tuition

At the discretion of the Superintendent or designee, students who are not residents of Fairfield but qualify under one of the following categories may be permitted to attend Fairfield Public Schools without paying tuition provided that space exists in established classes, sections, programs, or services; students are in good academic, attendance, and behavioral standing; and parents agree to provide transportation to and from school:

1. Members of the senior class if parents move from Fairfield during the student's senior year;
2. Students whose parents or guardian plan to move to Fairfield before the completion of the current semester, and who meet the requirements of registration;

5118(c)

In order to determine whether the residence is being provided “without payment or compensation,” the Board may consider the following factors, in addition to any other relevant facts:

1. Payment does not include the maintenance by a parent of his or her child on a health insurance policy;
2. Payment does not include claiming the child as a dependent for income tax purposes by his or her parent;
3. Payment does not include child support payments pursuant to a court order; and
4. Payment shall include any monetary remuneration from a parent or legal guardian for the support of a child either to the relative or non-relative or to the child. It shall not include gifts to the child for purposes other than support.

The Board of Education may require documentation from the parent* that the residence is to be permanent, provided without payment or compensation and not for the sole purpose of obtaining school accommodations provided by the Fairfield Public Schools. Such documentation may include affidavits as provided by law, provided that prior to any request for documentation of a child’s residency from the child’s parent* the Board of Education shall provide the parent* with a written statement specifying the basis upon which the Board has reason to believe that such child, emancipated minor or pupil 18 years of age or older is not entitled to school accommodations.

- * For the purpose of the above paragraph, “parent” includes guardian, relative or non-relative, emancipated minor or pupil 18 years of age or older, as applicable.

The determination of whether a student qualifies for accommodations provided by the Fairfield Public Schools shall be determined based on the factual circumstances of each case.

D. Children of Non-Resident Employees (Tuition)

The Board authorizes the Superintendent to accept non-resident students of employees in Grades 6 - 12 in the District and to develop administrative regulations to implement this policy.

5118(d)

For purposes of this policy and its associated administrative regulations, tuition means the cost as set forth in the administrative regulations for this policy.

Tuition will be determined annually by the District each January 1 for the upcoming school year. The basis for the tuition is thirty five percent of the total per pupil expenditure. The ~~guardian~~ parent will be charged any excess costs for programs and services provided beyond the general education curriculum and extracurricular offerings in addition to the base tuition rate. When a student is accepted into, or already has, a PPT determined special education program, the additional tuition cost shall be the total of any excess costs for programs and services provided beyond the general education curriculum. The tuition will be billed on a quarterly basis with the first installment due on or before September 1.

Students must remain in good academic, discipline and attendance standing. Continued enrollment in the Fairfield Public Schools is subject to annual review. The decision to approve the enrollment of said student in any school year shall not be binding in any subsequent school years.

The Superintendent will provide an annual report of tuition students, including grade and school placements to the Board of Education each October as part of the annual enrollment update.

Any change to the administrative regulations will first be brought to the Policy Committee.

III. Denial of Accommodations

If the Administration determines that any student is not a resident of Fairfield or that the student is otherwise not entitled to accommodations provided by the Fairfield Public Schools, it shall so notify that student and/or the student's parent(s) and/or legal guardian.

Any child, parent, or guardian may request a hearing before a hearing officer as appointed by the Board of Education in accordance with Conn. Gen. Stat. 10-186 if they believe they have been denied accommodations by the Fairfield Public Schools.

In the event it is determined that a child is not legally entitled to be provided school accommodations by the Fairfield Board of Education without payment of tuition, the Fairfield Board of Education may, pursuant to Connecticut General Statute 10-186, assess the child's parent or guardian for tuition for that period of time that the child was not legally entitled to attend Fairfield Public Schools and may seek civil remedies to collect any unpaid assessments of tuition.
