Special Meeting Agenda

## MEMBERS OF THE PUBLIC:

This meeting will be conducted in-person only. There will be no opportunity to call-in with public comment.

The best way to listen or watch the meeting remotely is:

1. FairTV's cable channel (78 for Cablevision); or
2. Webex\*: Call **408-418-9388**, and use Meeting Number (access code): **233 149 11503**  
(\*Audio only. All callers will be automatically muted and will not be heard by the BoE.)
3. [FairTV's Livestream](#); or
4. [FairTV's YouTube](#) Education Channel (*not live*)

To view all agendas, minutes and enclosures, please click [here](#).

**Please Note:** Guidance on public comment is per [BoE Bylaws](#), Article V, Section 6.

1. Call to Order of the Special Meeting of the Board of Education and Roll Call
2. Pledge of Allegiance
3. Business Items:
  - A. Superintendent Update on Racial Imbalance Timeline Extension Request with Connecticut State Department of Education
  - B. Superintendent's Parent Survey Results on Scenarios, Mr. Testani  
(Enclosure No. 1)
  - C. Magnet School Proposal and Discussion, Mr. Testani  
(Enclosure No. 2)
  - D. Additional Information from SLAM and Discussion on Redistricting Scenarios  
(Enclosure Nos. 3,4)
  - E. Amendment to the 2023-2024 School Calendar  
**Recommended Motion:** "that the Board of Education amend the 2023-2024 school calendar by making Tuesday April 30, 2024 an all day professional development day, and making May 28, 2024 a regular school day."  
(Enclosures Nos. 5, 6)
4. Approval of Minutes:  
**Recommended Motion:** "that the Board of Education approve the special meeting minutes of June 27<sup>th</sup>, 2023"  
(Enclosure No. 7)
5. Public Comment
6. Adjournment  
**Recommended Motion:** "that this Special Meeting of the Board of Education adjourn"

## RELOCATION POLICY NOTICE

The Fairfield Public Schools System provides services to ensure students, parents and other persons have access to meetings, programs and activities. The School System will relocate programs in order to ensure accessibility of programs and activities to disabled persons. To make arrangements, please contact the office of Special Education, 501 Kings Highway East, Fairfield, CT 06825, Telephone: (203) 255-8379.

# FPS STEAM

## Intradistrict Magnet School Considerations

# Intradistrict Magnet

**An Intradistrict Magnet School accepts students from other schools within the same district**

**The creation of the Magnet School will provide opportunities for other students to attend a more diverse elementary school**

**Addresses facilities utilization and racial imbalance by providing a unique opportunity for students across Fairfield**

**Engages students through unique learning opportunities and techniques**

# Why STEAM?

Experts estimate that as many as 65 percent of today's elementary school students will end up working in jobs that have not been invented yet

A STEAM (Science, Technology, Engineering, Arts, and Mathematics) elementary school supports interdisciplinary learning and creativity

# STEAM INTRADISTRICT MAGNET COMPONENTS

**Science and Technology labs**

**Engineering Design Spaces**

**Arts and Maker Spaces**

**Robotics and Coding**

**Project-Based Learning**

**Collaboration and Teamwork**

**Community Partnerships**

**Professional Development**

# THEATRE OFFERINGS

**Drama Classes**

**Theatre Productions**

**Script Analysis and Interpretation**

**Stagecraft and Technical Theatre**

**Collaboration and Ensemble Work**

**Theatre History and Appreciation**

**Performance Opportunities**

# Arts Integration

craft showcases expression  
ensemble cultural theatre movement  
dance drama creativity  
community acting stage personal performances  
appreciation observation  
development inclusivity

# STEAM Magnet School Implementation & Lottery 2024-25

**Fairfield Public Schools will create a Magnet School Zone**

**Students entering Kindergarten in 2024-25 will enter the lottery for acceptance into the Magnet School**

**Current McKinley students will complete the elementary school experience through Grade 5**

**A percentage of students in the Magnet Zone and siblings will receive priority to attend**

**Remaining Magnet School seats will be filled via lottery by students from across the town who apply**

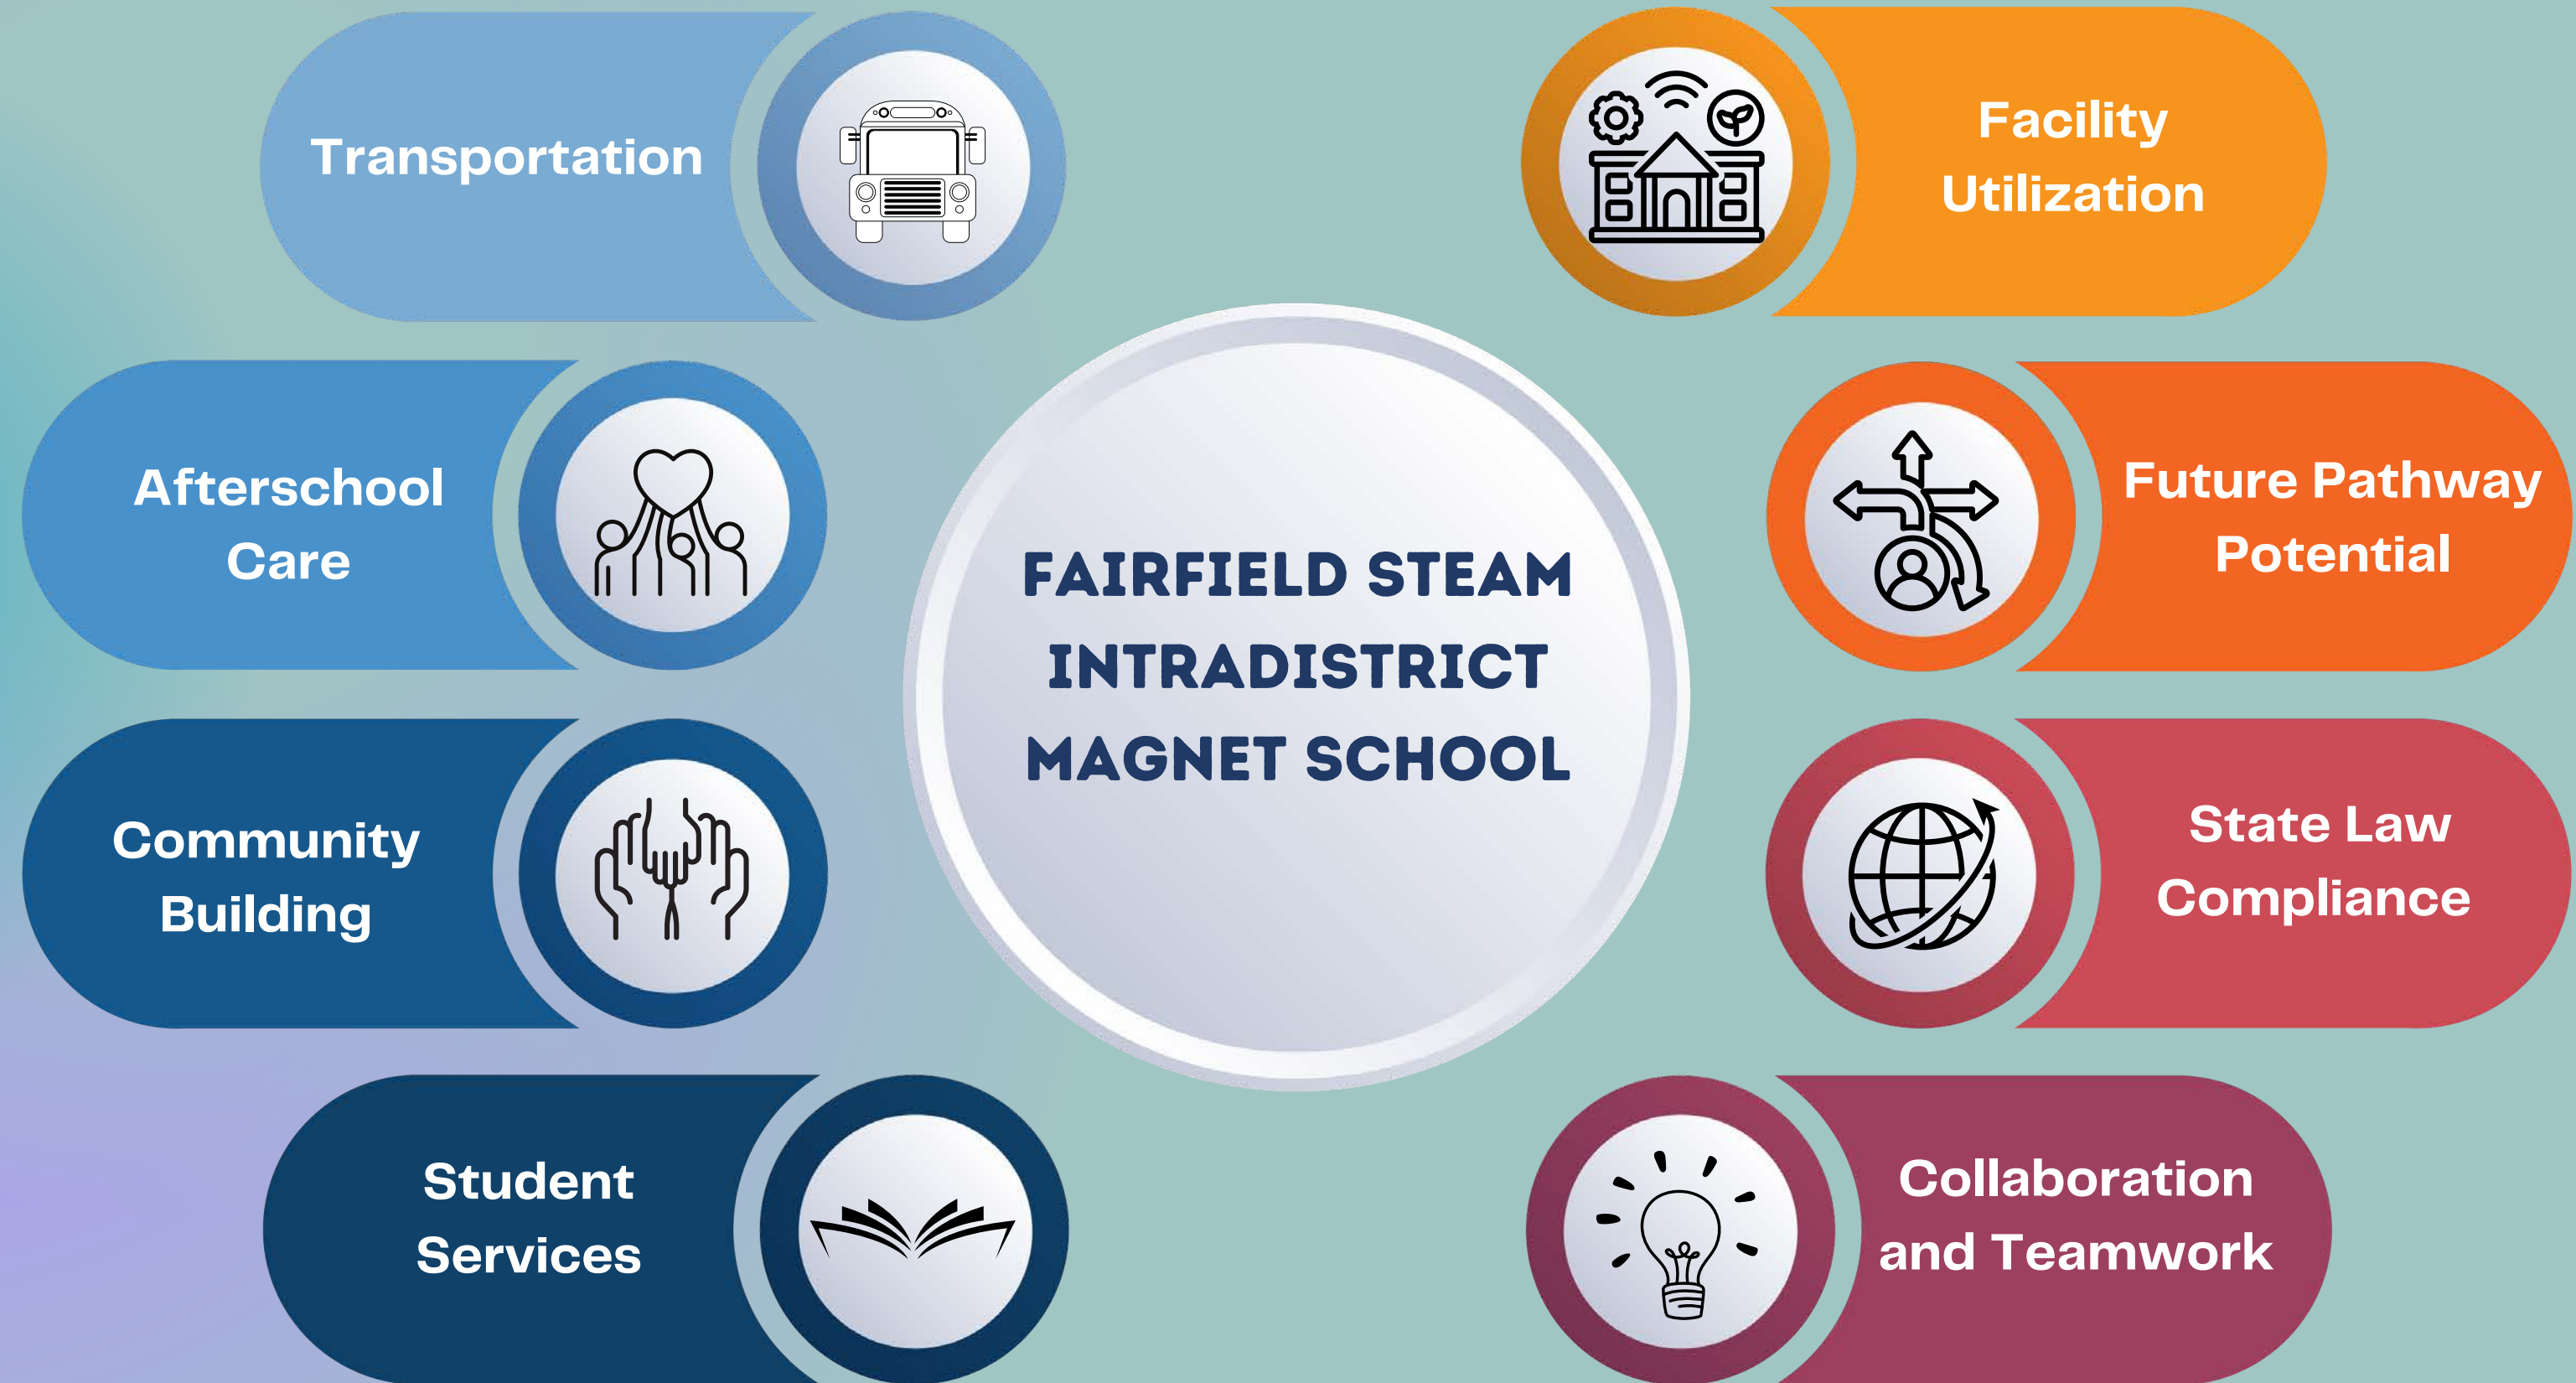

**Students who live in the Magnet Zone will enter the lottery or opt to attend their neighborhood school; Jennings or Stratfield depending on address**

**The district will work to develop a plan to support those families who require after-school programming currently offered at McKinley**

## Supplemental Master Information July 12, 2023

# Charge to Consultant: Key Elements

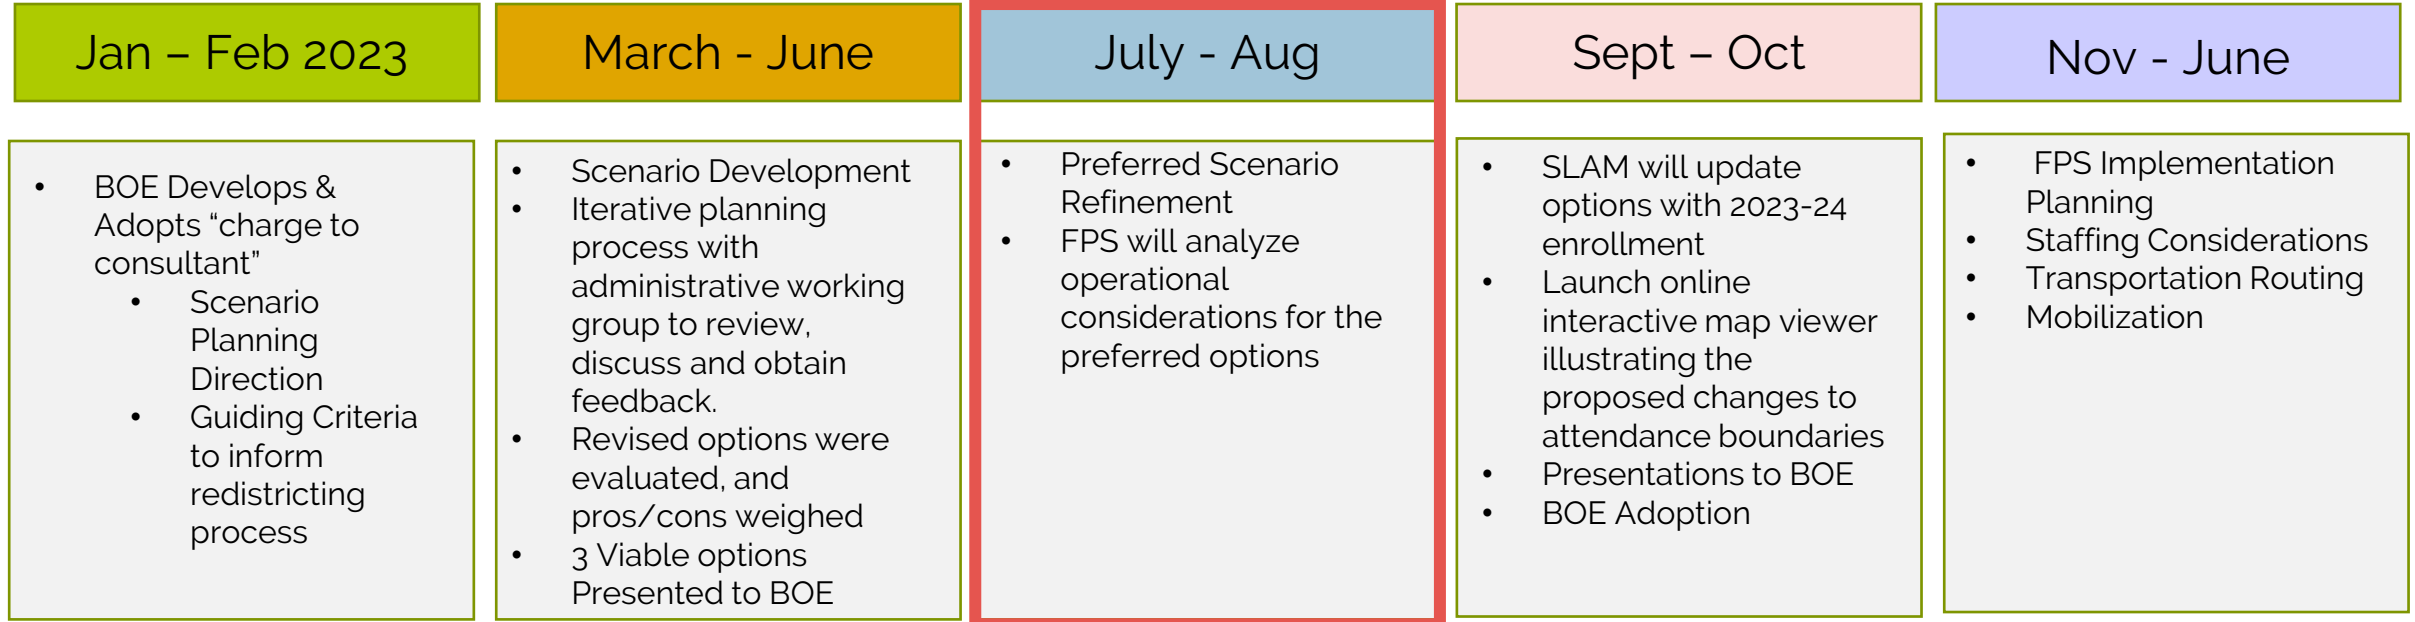

- Target 85%-90% operational utilization rate for all schools after subtracting for unique specialized programming.
- Possibly reconsider secondary school feeder plans.
- Bring the disparity in racial composition between any one elementary school and the district-wide K-5 average within the limits required by law in a manner that is sustainable.

[Link to full Charge](#)

*Approved by Board of Education on January 24, 2023*

# Timeline & Process

- Adopted Plan in place for 2024-25 school year.

# Capacity & Utilization

- For districts like Fairfield that zone their elementary schools by neighborhood, we recommend using **85% to 90% utilization** for long range planning
  - Typically, utilization is calculated based on a percentage of the **maximum capacity** (based on maximum class size policies).
  - Maximum class sizes are 23 in grades K-2 and 25 in grades 3-5, with lower class sizes at McKinley.
- Historically, Fairfield has used 21 students per classroom when determining its Operational Capacity.
- **Operational Capacity has an effective utilization rate of 87.5% of the maximum based on the district's class size policy.**

# Capacity & Utilization

## Maximum Capacity

*Example from a 4-section per grade school*

Grade	Max Class Size	Max Enrollment
K	23	92
1	23	92
2	23	92
3	25	100
4	25	100
5	25	100
<b>Maximum Capacity</b>		<b>576</b>
<b>Enrollment Target Range</b> <small>Based on 85% to 90% utilization</small>		<b>490 to 518</b>
<b>Avg. Class Size Target Range</b> <small>Based on 85% to 90% utilization</small>		<b>20.4 to 21.6</b> students/CR

## Operational Capacity

*Example from a 4-section per grade school*

Grade	Max Class Size	Max Enrollment
K	21	84
1	21	84
2	21	84
3	21	84
4	21	84
5	21	84
<b>Operational Capacity</b>		<b>504</b>
<b>Effective Utilization Rate</b>		<b>87.5%</b>
<b>Avg. Class Size</b>		<b>21 students/CR</b>

**Note that 100% of the operational capacity has an effective utilization rate of 87.5%, which is within the 85% to 90% range established by the BOE Charge.**

# Capacity & Utilization

**100% of the Operational Capacity is an ideal planning target for the purposes of Scenario Planning.**

This results in an effective utilization rate of 87.5% and average class size of 21 students per classroom.

- **Special Programs deducted from Operational Capacity**
- Worked with FPS staff to place special program expansions in appropriate buildings.
- Two additional CLC classrooms ideally located at Jennings (1) and Riverfield (1).
- Early Literacy Academy classrooms should be located together. May out-grow McKinley and can move to a different building – location to be determined in each scenario based on space availability.
- Therapeutic Learning Center expansion will be at Riverfield (2 classrooms total)
- Pre-K - strive for clusters of three Pre-K classrooms to maintain efficient program delivery. Potential schools include Holland Hill, Jennings, North Stratfield, or Stratfield.

# State Racial Balance Law

## CT General Statutes § 10-226

**Racially Imbalanced:** Schools whose minority composition varies by 25% or more from the district's minority composition for the same grades.

- District must submit a plan to the CSDE addressing how imbalance will be corrected

**Impending Racial Imbalance:** Schools whose minority composition varies between 15% and 25% from the district's minority composition for the same grades.

- District is notified of impending racial imbalance by CSDE, but not required to submit a Racial Balance Plan.

Several neighborhoods in the McKinley attendance zone have a minority student population that is **40% or more higher** than the districtwide average

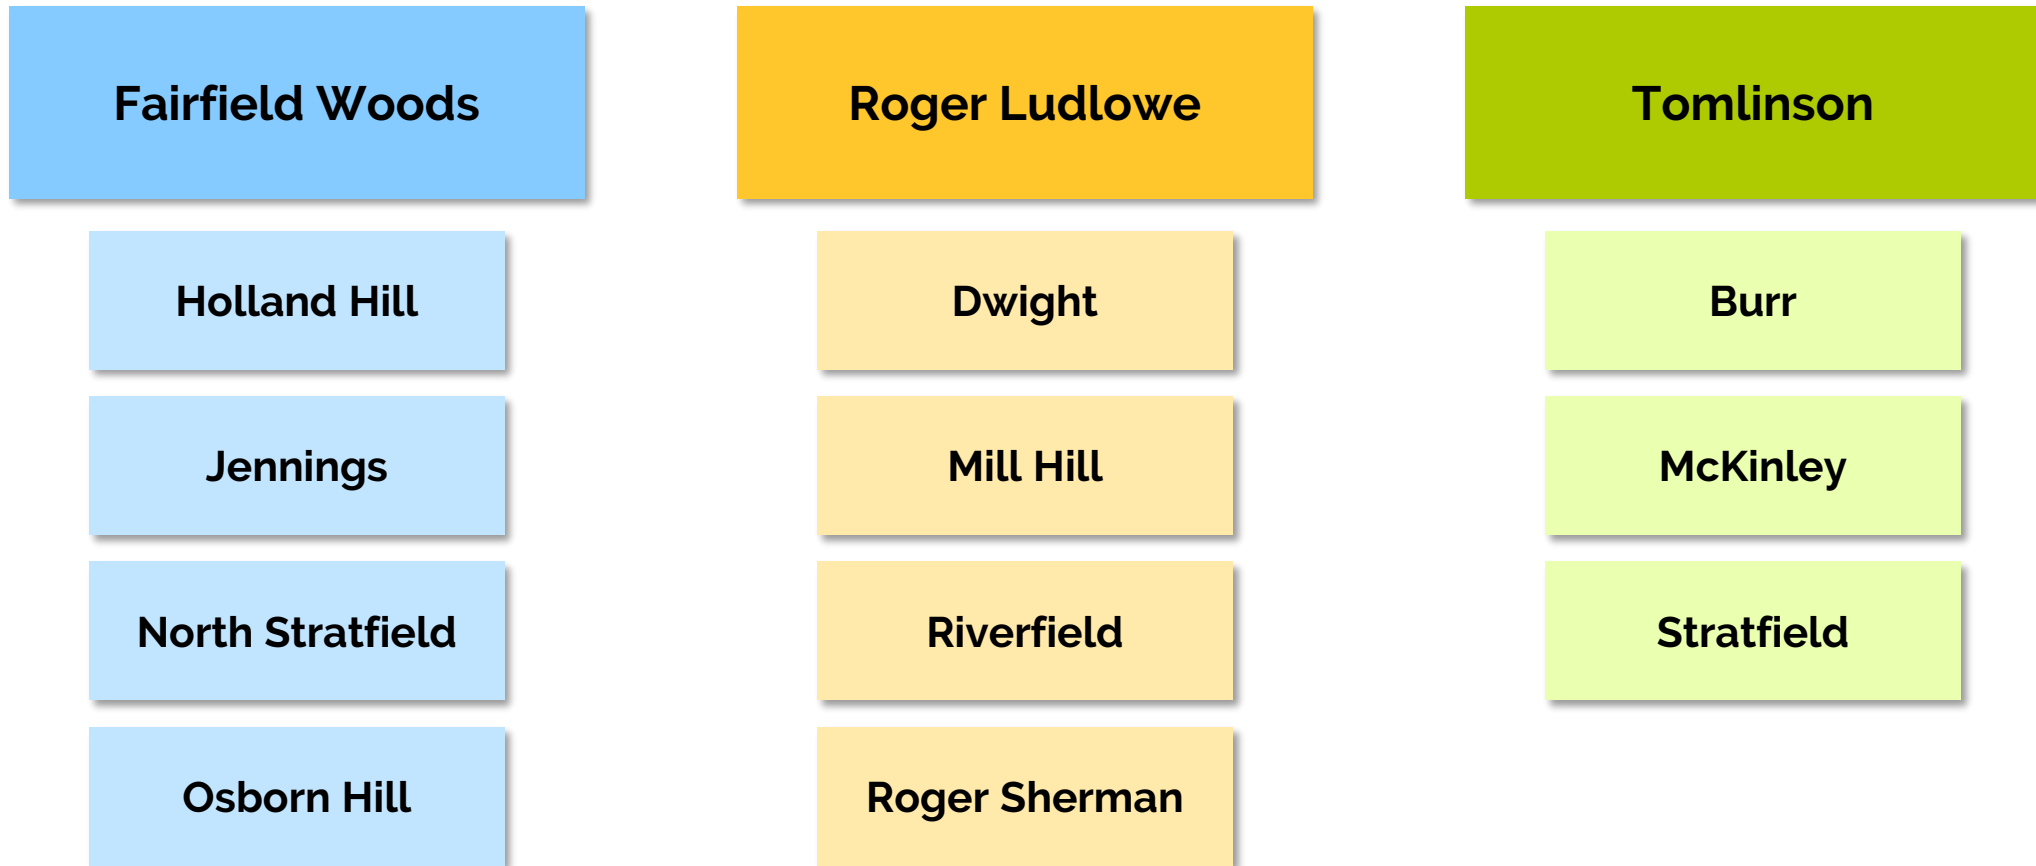

# Racial Balance: Approach

- Fairfield's Racial Imbalance largely reflects its neighborhood-based attendance zones and the high concentration of minority students in specific neighborhoods in McKinley and Holland Hill.
  - Almost all neighborhoods in McKinley have a significantly higher share of minority students than the district as a whole. Several neighborhoods exceed the districtwide average **by over 40%**.
- **In order to achieve racial balance, attendance zones need to pair together neighborhoods with high minority student populations with neighborhoods with low minority student populations.**
- **Placing high minority concentration neighborhoods in two elementary schools would likely result in two schools being in the “high impending” category (below, but approaching 25% imbalance).**
  - May meet statutory obligations in the near-term. However, this may not be a viable long-term solution as changing demographics could result in one or more schools being out of compliance with the state racial balance law in the future.
- **Placing high minority concentration neighborhoods in three elementary schools, or creating satellite zones, would likely address racial imbalance in a more sustainable and long-term fashion.**

# Objectives and Metrics

Objective	Description	Metrics		
		Good	Fair	Poor
<b>Address Racial Imbalance</b>	Based on 7-year historic lookback: All schools comply with the state racial balance law (<25% of districtwide average), ideally with a 5% buffer to ensure long-term viability	All schools within 20% of districtwide average over the last 5 years	All schools compliant with state racial balance law, but one or more schools >20% of districtwide average over the last 5 years.	One or more schools non-compliant with state racial balance law over the last five years.
<b>Balance Utilization Across all Elementary Schools</b>	<b>Over the next five years:</b> <ul style="list-style-type: none"> <li>All elementary schools average +/- 5% of the districtwide average utilization</li> <li>Note that districtwide average utilization is not projected to exceed 100% of the operational target under any scenario</li> </ul>	All schools within 5% of districtwide average utilization	All schools within 10% of districtwide average utilization	Some schools are greater than 10% difference from districtwide average utilization
<b>Minimize Redistricting Impacts</b>	Number of elementary students redistricted	10% or less of students	11% to 20% of students	>20% of students
<b>Student Walker Impacts</b>	Net impact of student walkers impacted	5% or less of walkers	6% to 10% of walkers	>10% of walkers
<b>Secondary School Impacts</b>	Changes to Secondary School feeder patterns Redistricting impacts to MS and HS students	<b>Qualitative metric</b> Secondary school impacts dependent on implementation approach		

# Jennings ECC Clarifications

Working with FPS administration, it was envisioned that the Jennings ECC would house all Pre-K classrooms in the district, including:

- Six (6) Pre-K classrooms currently at Fairfield Warde
- Four (4) Pre-K classrooms currently at Stratfield
- Five (5) additional Pre-K classrooms for program expansion

In addition to the Pre-K classrooms, additional classrooms would be needed for an ECC including OT, PT, other support services (est. 3 classrooms), conference room, and team room.

Core spaces including the main office, nurses office, and gym would also support the ECC.

# Scenario 1A

- Repurpose Jennings as an Early Childhood Center (ECC)
- Comprehensive Elementary Redistricting to Address the Following:
  - Reassign Jennings K-5 students
  - Address Racial Imbalance at McKinley
  - Balance Utilization Across All Schools
- Modified Middle School Feeder Pattern to preserve Fairfield Woods walking community
- High School Feeder Pattern remains the same

## Redistricting Impacts (K-4):

- ~18% of elementary students

## Greatest Share of Impacts to:

- Jennings: 31% of total impact
- McKinley: 21% of total impact
- Burr: 18% of total impact
- N. Stratfield: 11% of total impact

*Note: All students were returned to their zoned schools*

- Overall utilization of 89.4%, with all schools within ~5% of districtwide average.
- Jennings CLC classrooms relocated to N. Stratfield. Early Literacy Academy shifted to Stratfield

# Scenario 1A: Racial Balance

- All schools in compliance with state racial balance law.
- No school exceeds 20% of districtwide average at any point over the last seven years.
- Holland Hill and McKinley would have been impending imbalance at some point over the last 7 years, **but never would have exceeded 18% of districtwide average.**

Reminder that 100% utilization means the building is at its operational target of 21 students per available classroom. This represents 87.5% of the maximum capacity.

- Overall utilization increases to about 97% of operational target by the 2031-32 school year.
- Balanced utilization across all schools (all schools averaging +/- 5% of districtwide average over the first 5 years).
- No schools exceed operational target over the first five years. Both Burr and Holland Hill slightly exceed 100% of operational target over the later years of the projections.
  - Enrollment growth at both schools dependent on planned housing developments moving forward.

# Scenario 1A

## Potential Changes to Middle School Feeder Pattern

Changes made to maintain walking community around Fairfield Woods and improve proximity

## Scenario 1A MS Boundaries

## Redistricting Impacts (6-7):

- **Modified Feeder Pattern. Burr and McKinley shift to Fairfield Woods while Osborn Hill and Holland Hill shift to Tomlinson.**
- ~23% of middle school students would be impacted (shown on map).
- Impacts could be reduced with grandfathering

*Note: All students were returned to their zoned schools*

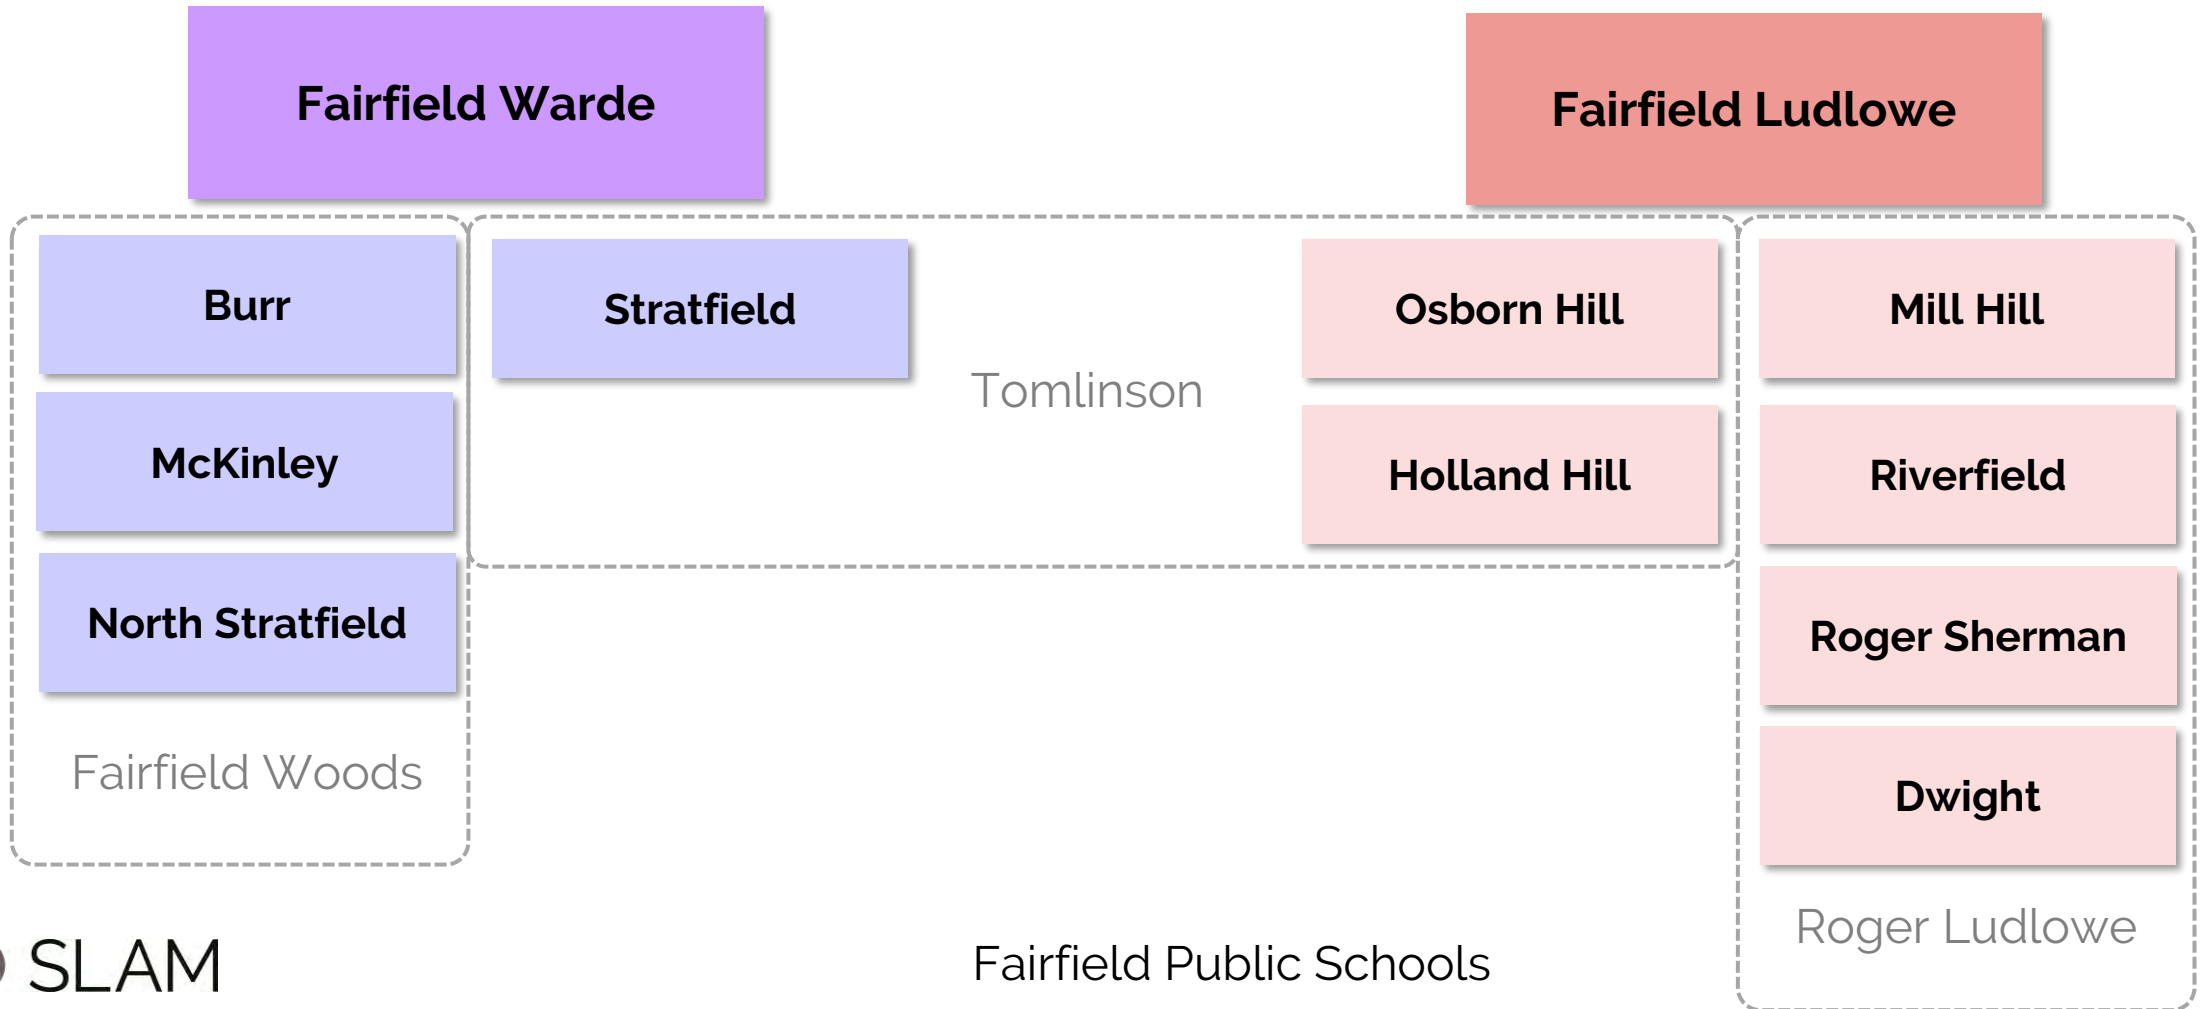

# Scenario 1A

## Potential Changes to High School Feeder Pattern

No changes to High School feeder patterns. Tomlinson still "split" between Fairfield Warde and Fairfield Ludlowe

Alternative HS	66	66	66	66	66	66	66	66	66	66	66	0.0%	0.0%

- Roger Ludlowe projected to be the largest of the three middle schools, although gap is projected to decrease as enrollment grows at Fairfield Woods and Tomlinson.
  - Cohort sizes generally in the 200 to 275 students per grade in all three middle schools.
- Closure of Jennings results in uneven projected enrollment in the High Schools, with Fairfield Ludlowe averaging over 300 students larger than Fairfield Warde.

# Scenario 1A: Considerations

- Would address racial imbalance at McKinley with no schools exceeding 18% of districtwide average over the last seven years.
- Would balance utilization across all schools, with no schools exceeding 100% of operational capacity and all schools within ~5% of districtwide average over the next five years.
- Jennings is an advantageous site for Pre-K Center due to central location and available ground floor classrooms. Requires detailed facility study.
  - Provides ample space for program expansion in the future.
- Would impact ~18% of elementary students, including all of Jennings.
- Loss of walker community around Jennings, although some of these students can walk to McKinley.
- MS Feeder Pattern modified to retain walking community around Fairfield Woods,
  - Results in impacts to ~23% of middle school students.
- No changes to HS Feeder Pattern, although would shift additional students into Fairfield Ludlowe (would become over 300 students larger than Fairfield Warde)

Objective	Description	Score

# Jennings ECC Clarifications

Working with FPS administration, it was envisioned that the Jennings ECC would house all Pre-K classrooms in the district, including:

- Six (6) Pre-K classrooms currently at Fairfield Warde
- Four (4) Pre-K classrooms currently at Stratfield
- Five (5) additional Pre-K classrooms for program expansion

In addition to the Pre-K classrooms, additional classrooms would be needed for an ECC including OT, PT, other support services (est. 3 classrooms), conference room, and team room.

Core spaces including the main office, nurses office, and gym would also support the ECC.

  - Cohort sizes at Fairfield Woods generally range from 280 to 320 per grade while Roger Ludlowe and Tomlinson range from 180 to 220 per grade.
  - May be difficult to support three teams per grade at Fairfield Woods.
- Roughly equal sized high schools with enrollment decreasing to below 1,300 students at the midpoint of the projections.

- All schools would have complied with the state racial balance law over the last seven years, however, both McKinley and Holland Hill are “impending imbalance” and approaching 25% deviation.
- Would balance utilization across all schools with all schools within ~5% of districtwide average over the next five years.
- Dwight is a less advantageous site for an ECC due to remoteness and lack of accessible ground floor classrooms.
- Would impact ~18% of elementary students.
- Net impacts to ~3% of walking elementary students. Some impacted students can walk to new school.
- Impacts to 11% of middle school students and 8% of high school students.
- Lack of room in elementary schools that feed into Roger Ludlowe and Fairfield Ludlowe.
  - Dwight area would be reassigned to Tomlinson and Fairfield Woods for Middle School, and Fairfield Warde for High School.

Objective	Description	Score
<b>Address Racial Imbalance</b>	McKinley and Holland Hill racially balanced, but exceed 20% in one or more years	Fair
<b>Balance Utilization Across all Elementary Schools</b>	All schools within 5% of districtwide average for the first 5 years of the projections	Good
<b>Minimize Redistricting Impacts</b>	18% of elementary school students	Fair
<b>Student Walker Impacts</b>	Minimal walking population at Dwight. Some impacted walkers can walk to new school. Net impacts to ~3% of walking students	Good
<b>Secondary School Impacts</b>	No changes to MS feeder No changes to HS feeder  11% of MS students impacted 8% of HS students impacted	

# Scenario 1B: Eliminated

## **Dwight is less advantageous as a Pre-K Center compared to Jennings:**

- Does not address racial balance in a sustainable manner – would result in McKinley and Holland Hill exceeding 20% of district average and approaching 25% imbalance.
- Isolated location relative to PK student population compared to centrally located Jennings.
- No accessible ground floor classrooms at Dwight – would likely require more substantial investments compared to Jennings, which has some accessible ground floor classrooms.

## **Other considerations:**

- Repurposing Dwight would result in greater high school impacts but fewer impacts to middle schoolers (no change in feeder pattern).
- Reducing to ten elementary schools, impacts enrollment balance at the middle and high schools.
- Repurposing a school results in districtwide elementary utilization of 97% of operational target over the final two years of the projections.
  - While slightly below the 100% operational target, this provides less flexibility to respond to enrollment bubbles, unforeseen residential development, or to provide space for educational programs as needs arise.

# Scenario 2

- Maintain 11 elementary school configuration
- Address racial imbalance at McKinley through use of satellite zones
- Balance utilization at all elementary schools
- Provide space for expanded special programs
  - Grow Pre-K classrooms in elementary schools from 4 to 9 classrooms
  - Pre-K classrooms assigned to Holland Hill, Stratfield, and North Stratfield.
- Maintain existing middle and high school feeder patterns

## Scenario 2 Elementary Districts

**Two satellite zones created in McKinley and Stratfield to address racial balance.**

## Scenario 2 Elementary Change Areas

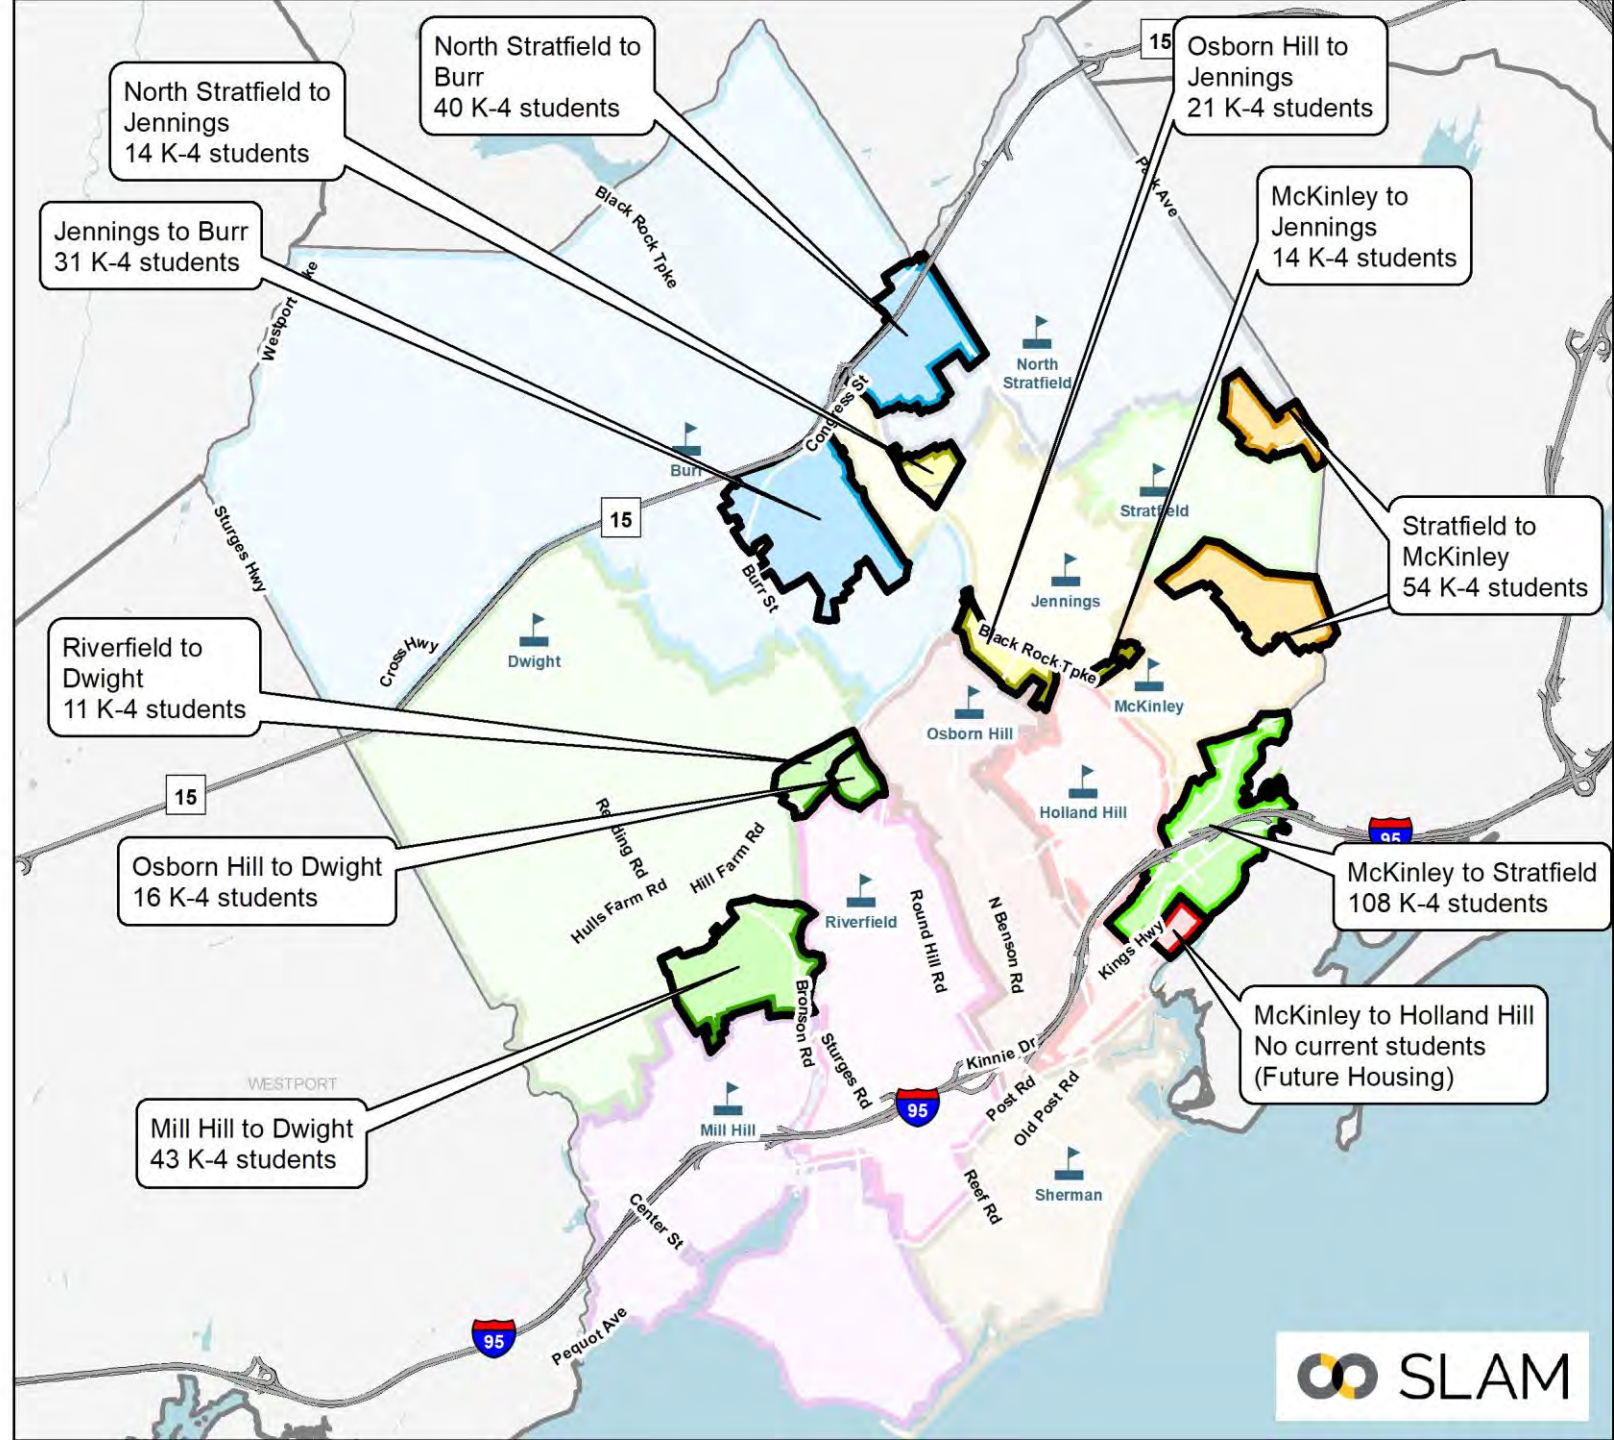

## Redistricting Impacts (K-4):

- ~11% of elementary students
- Many small “pocket” areas moved

## Greatest Share of Impacts to:

- McKinley: 30% of total impact
- Stratfield: 13% of total impact
- N. Stratfield 13% of total impact
- Mill Hill: 12% of total impact
- Osborn Hill: 10% of total impact

*Note: All students were returned to their zoned schools*

- Overall utilization of 85.8%, with all schools between within ~5% of districtwide average.
- Pre-K classrooms located at North Stratfield, Stratfield, and Holland Hill.

# Scenario 2: Racial Balance

- All schools in compliance with state racial balance law.
- No school exceeds 20% of districtwide average at any point over the last seven years.
- Holland Hill and McKinley would have been impending imbalance at some point over the last 7 years, **but never would have exceeded 19% of districtwide average.**
- Note that PK-5 schools would be compared to PK-5 districtwide average.

**Greatest Confidence – 1<sup>st</sup> 5-yrs**

Reminder that 100% utilization means the building is at its operational target of 21 students per available classroom. This represents 87.5% of the maximum capacity.

- Overall utilization increases to about 93% of operational target by the 2031-32 school year.
- Generally, balanced utilization across all schools (no school exceeds 100% of operational target over the next five years and all schools within 5% of districtwide average).
- Both Burr and Holland Hill to reach ~100% of operational target over the later years of the projections.
  - Enrollment growth at both schools dependent on planned housing developments moving forward.

## Scenario 2 MS Boundaries

### Scenario 2 MS

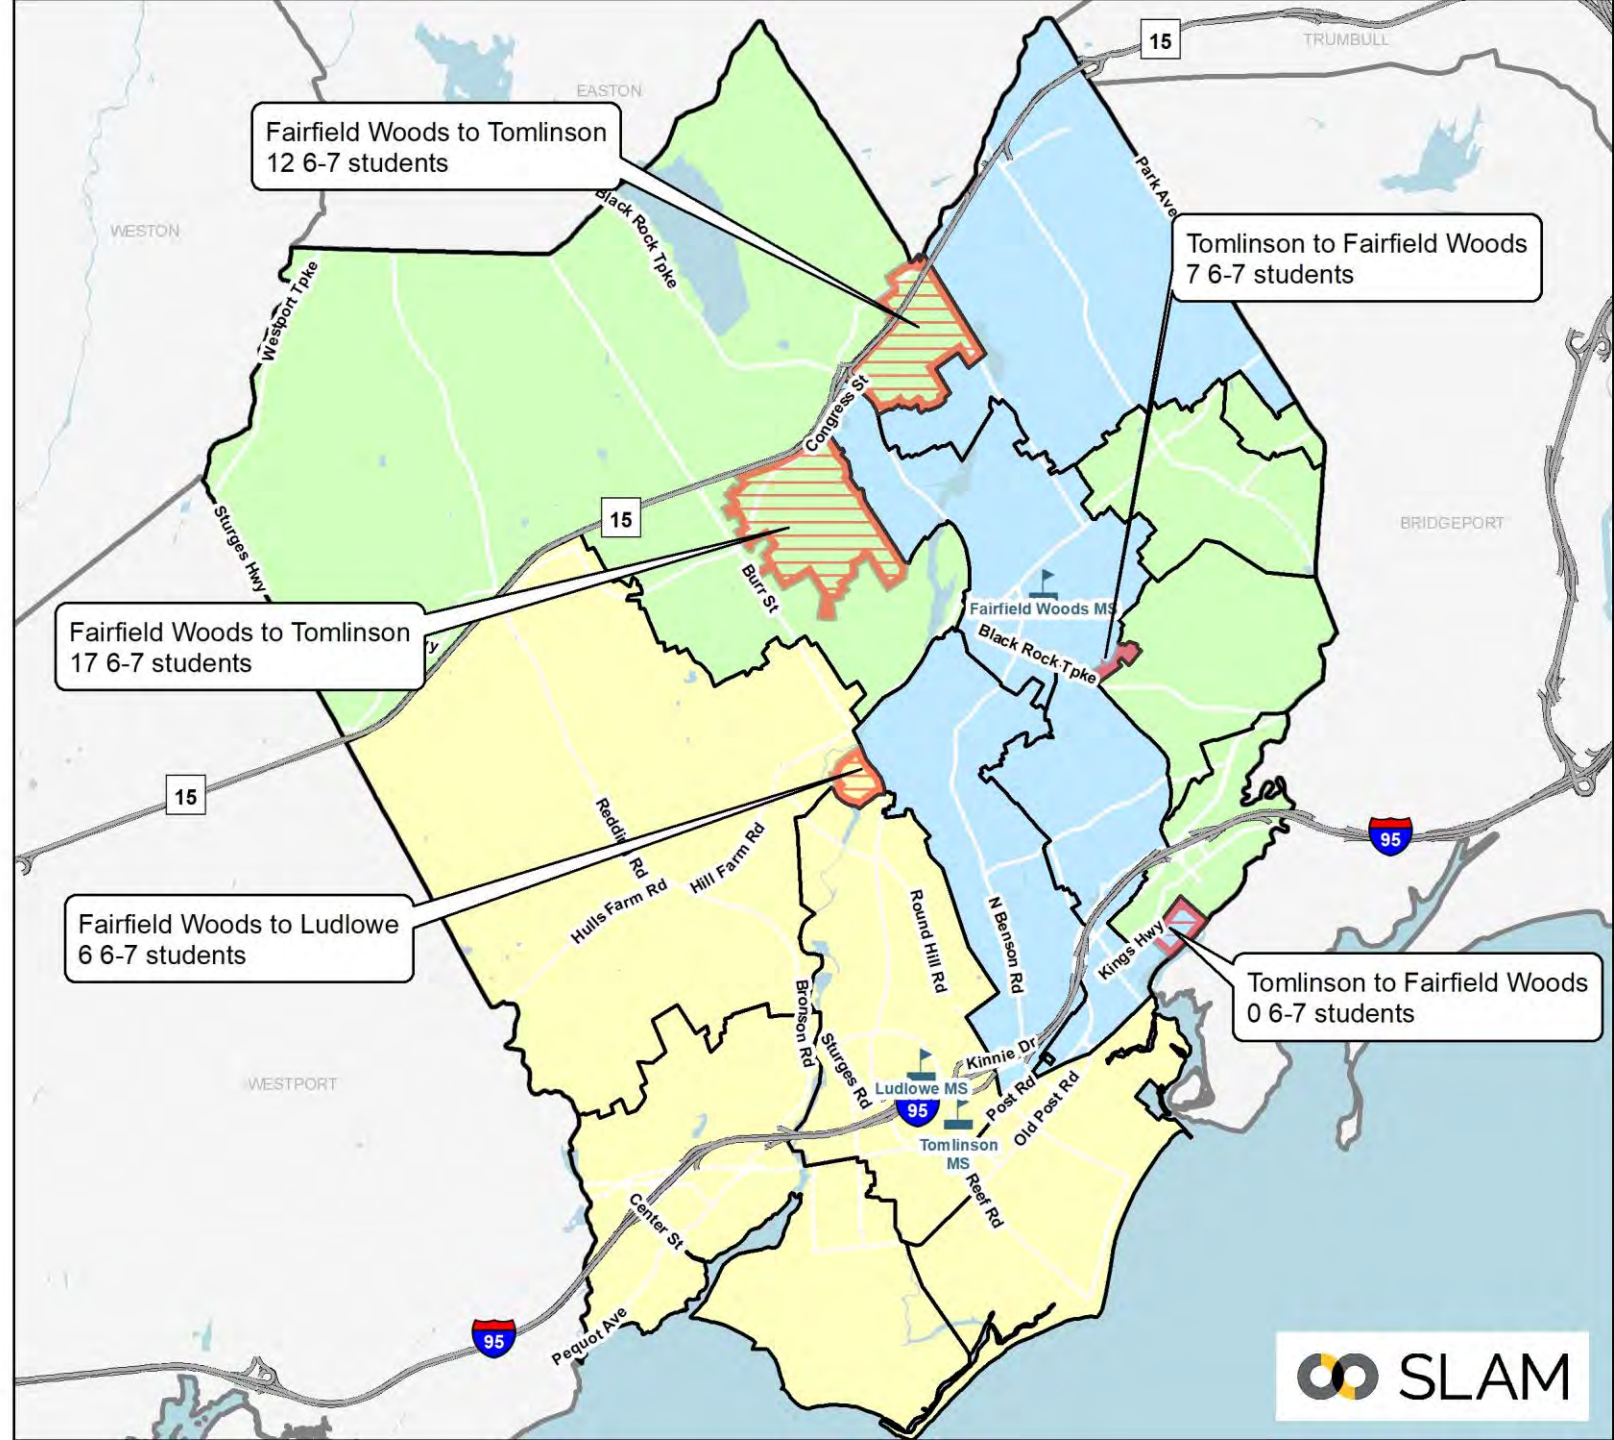

- Fairfield Woods
- Roger Ludlowe
- Tomlinson
- School Points
- MS Change Areas
- Elementary Districts

**Maintains current feeder pattern based on modified elementary boundaries**

### Redistricting Impacts (6-7):

- Minimal redistricting impacts (~3% of students) with little net change in enrollment at each MS.
- Impacts could be reduced or eliminated with grandfathering or multi-year "phase-in."

*Note: All students were returned to their zoned schools*

## Scenario 2 HS Boundaries

-  School Points
-  HS Change Areas
-  Elementary Districts

### Scenario 2 High School Boundaries

-  Fairfield Ludlowe
-  Fairfield Warde

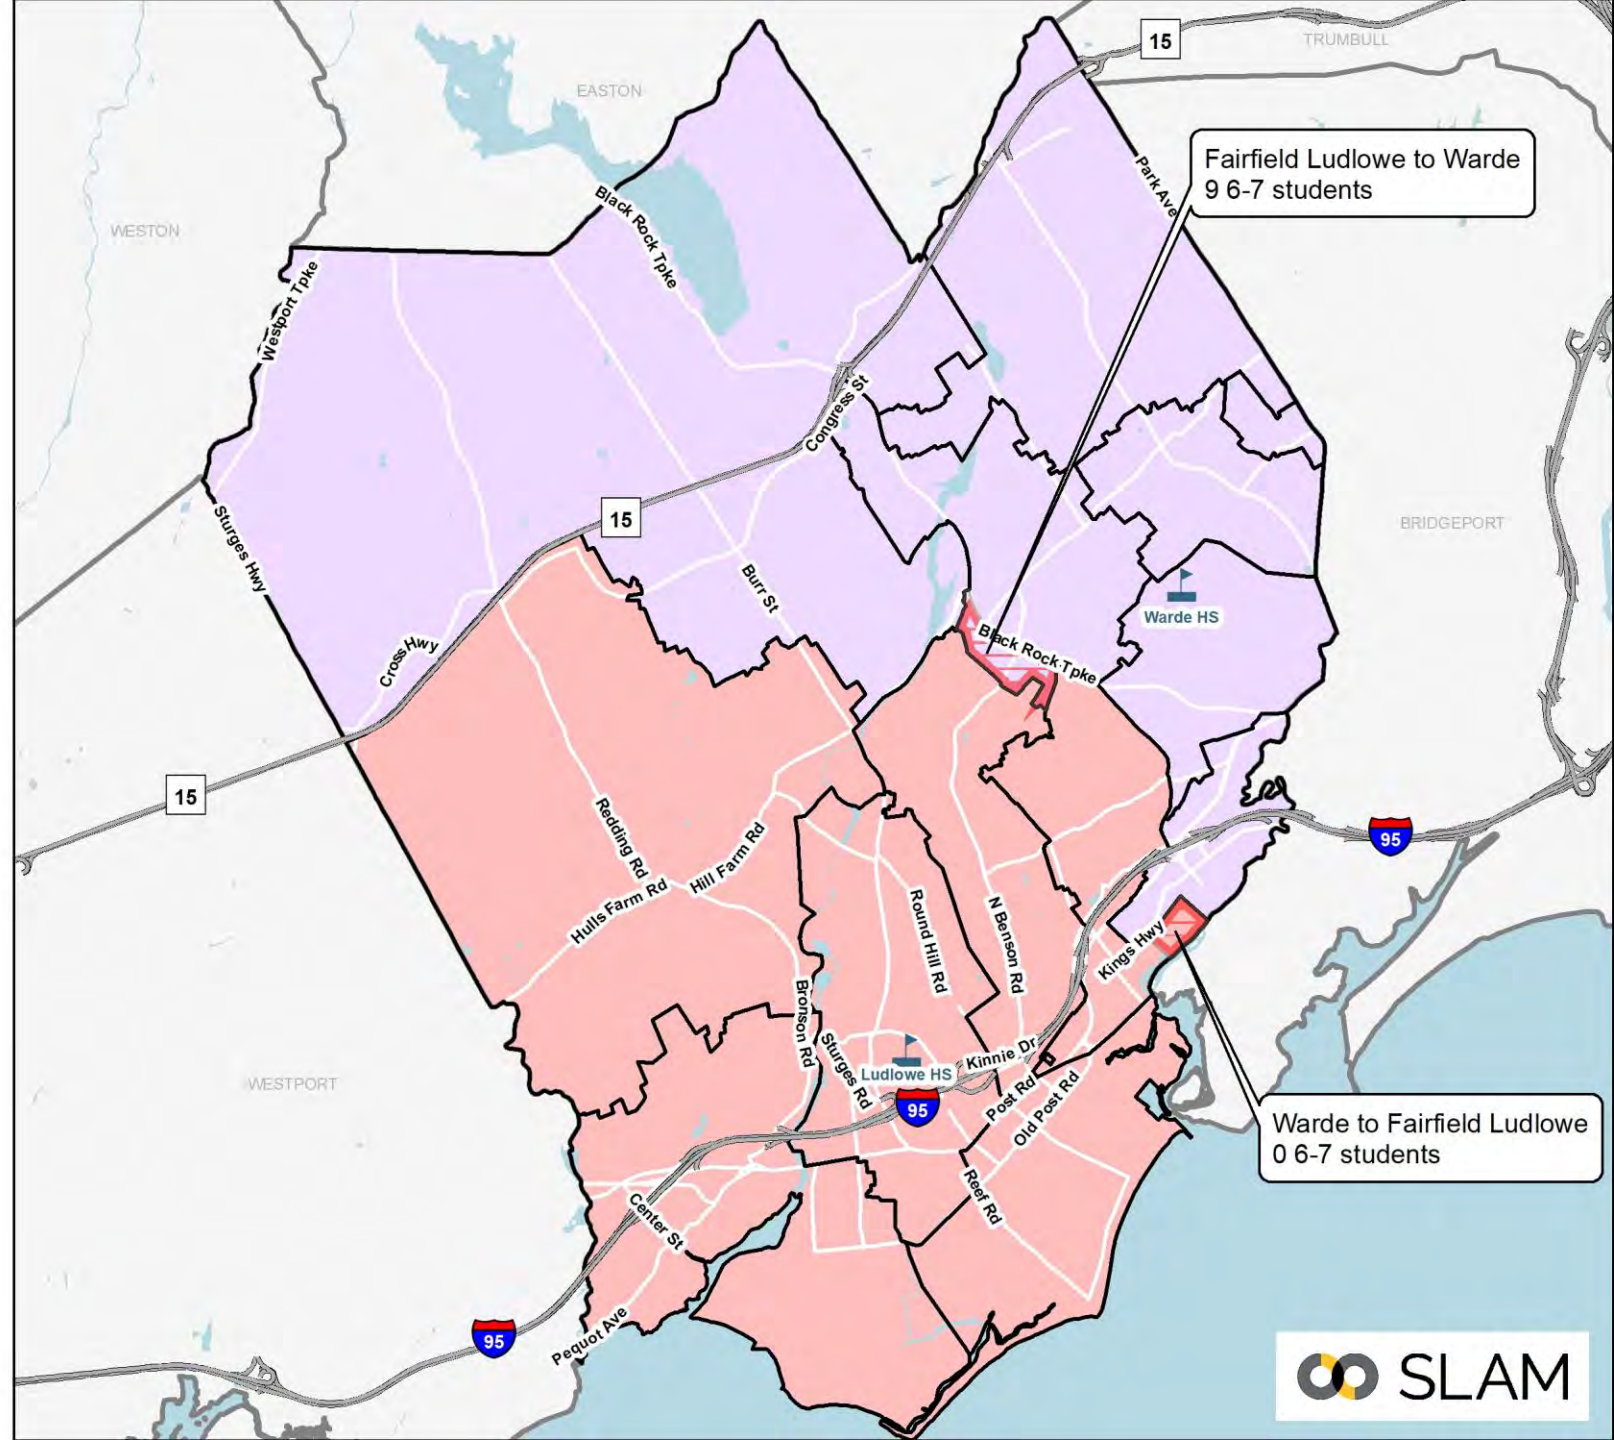

**Maintains current feeder pattern based on modified elementary boundaries**

### Redistricting Impacts (9-11):

- Minimal high school redistricting impacts (~1% of students)
- Impacts could be reduced or eliminated with grandfathering or multi-year "phase-in."

- Fairfield Woods and Roger Ludlowe projected to be larger than Tomlinson.
  - Cohort sizes generally range from ~230 to 260 at Fairfield Woods and Ludlowe and ~200 to 220 at Tomlinson.
  - Large than average bubble class enters Fairfield Woods beginning in 2027-28.
- Fairfield Ludlowe projected to be ~100 students larger than Fairfield Warde.

# Scenario 2: Considerations

- Maintains current 11-school alignment
- All schools would have complied with the state racial balance law over the last seven years, and no school exceeds 20% imbalance.
- Would balance utilization across all schools with all schools within ~5% of districtwide average for 2022-23.
- Would impact ~11% of elementary students.
- Net impacts to ~1% of elementary walkers. Some impacted walkers can walk to new school.
- Satellite zones minimize redistricting impacts but depart from the district's traditional neighborhood-based model.
- Maintains existing middle and high school feeder pattern, but based on revised elementary attendance zones.
- Minimal redistricting impacts to middle school (3%) and high school (1%) students.

Objective	Description	Score
<b>Address Racial Imbalance</b>	All schools less than 20% of districtwide average over the last five years.	Good
<b>Balance Utilization Across all Elementary Schools</b>	All schools within 5% of districtwide average for the first 5 years of the projections	Good

<b>Secondary School Impacts</b>	No changes to MS feeder No changes to HS feeder  3% of MS students impacted 1% of HS students impacted	

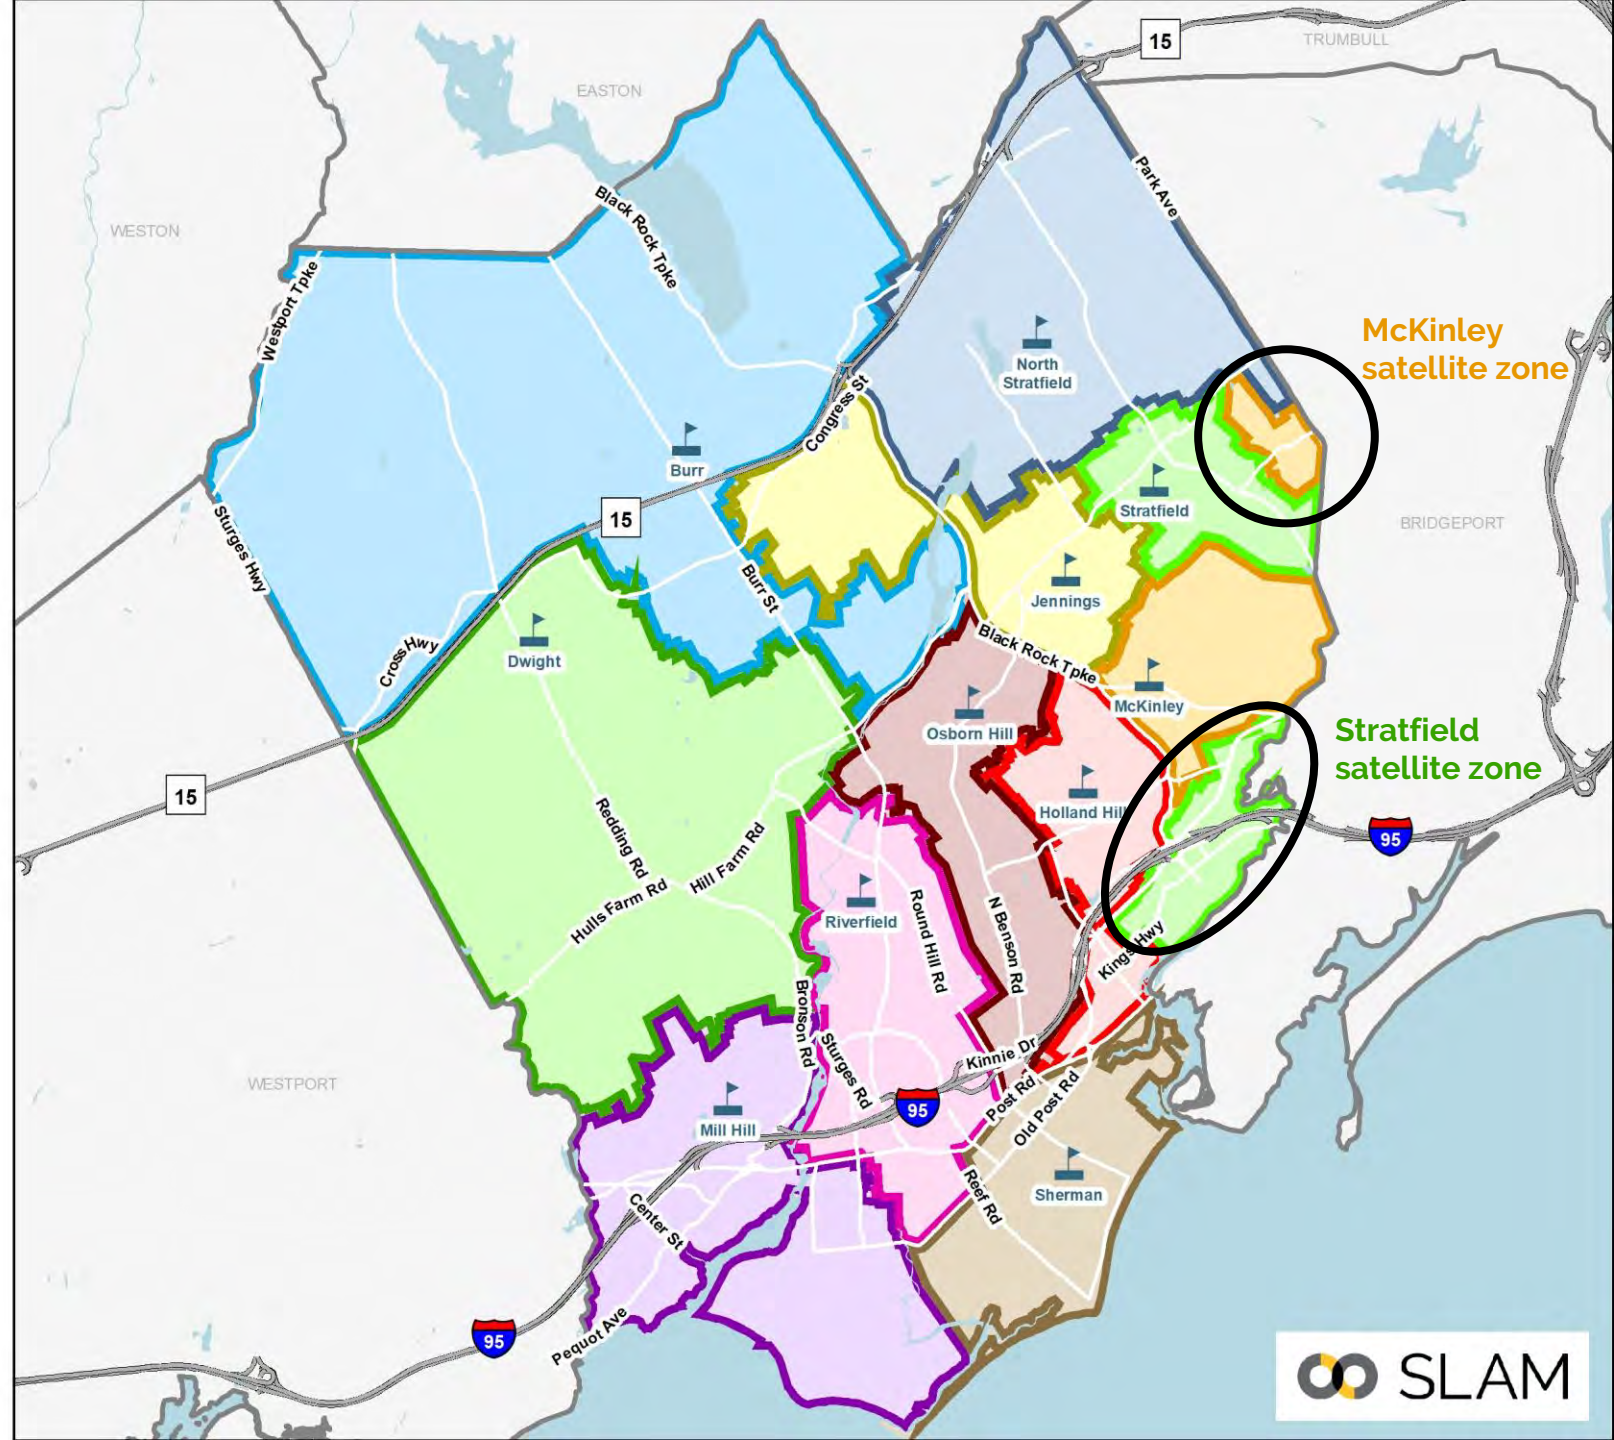

# Scenario 3

- Maintain 11 elementary school configuration
- Move as few students as possible while providing racial balance across all elementary schools.
  - Focus redistricting on areas within existing middle school and high school feeders.
  - Minimize impacts to walkers
- Provide space for expanded special programs
  - Grow Pre-K classrooms in elementary schools from 4 to 9 classrooms
  - Pre-K located in Holland Hill, Stratfield, and Jennings.
  - Shift Early Literacy Academy from McKinley to Burr to leverage available space.

- Pre-K classrooms located at Holland Hill, Jennings, and Stratfield.
- Early Literacy Academy shifted from McKinley to Burr (helps offset lower enrollment at Burr).

# Scenario 3: Racial Balance

- All schools in compliance with state racial balance law.
- No school exceeds 20% of districtwide average at any point over the last seven years.
- Holland Hill, McKinley, and Stratfield would have been impending imbalance at some point over the last 7 years, **but never would have exceeded 19% of districtwide average.**

Reminder that 100% utilization means the building is at its operational target of 21 students per available classroom. This represents 87.5% of the maximum capacity.

### Greatest Confidence – 1<sup>st</sup> 5-yrs

- Overall utilization increases to about 93% of operational target by the 2031-32 school year.
- Over the next five years, Burr and Dwight are more than 5% lower than districtwide average while Osborn Hill averages ~10% higher than districtwide average. Utilization balance improves over the final five years.
- Osborn Hill to operate at or near operational target for the duration of the projections, but never exceeds 101%.

- Fairfield Woods and Roger Ludlowe projected to be roughly similar sizes over the next few years, with Fairfield Woods growing to be the largest middle school over the later years of the projections
  - Cohort sizes range from ~260 to 300 at Fairfield Woods, ~240 to 260 at Roger Ludlowe, and ~200 to 220 at Tomlinson.
  - Large than average bubble class enters Fairfield Woods beginning in 2027-28.
- Fairfield Ludlowe projected to be ~100 students larger than Fairfield Warde.

# Scenario 3: Considerations

- Maintains 11 elementary school alignment.
- All schools would have complied with the state racial balance law over the last seven years, with no school exceeding 19% deviation
- Some schools deviate from districtwide utilization balance by up to 10% over the next five years (underutilized Burr).
  - Most schools are at or near operational target.
- Satellite zones minimize redistricting impacts but depart from the district's traditional neighborhood-based model.
- No impacts to middle and high school students. No grandfathering required.
- Minimal impacts to walking students. Impacts to walkers can likely be eliminated through scenario refinement
- Utilization balance could be improved with further "pocket" redistricting but would result in greater redistricting impacts.
- If FPS builds dedicated CLC or ECC spaces as part of future renovation projects at Dwight and Jennings, elementary redistricting impacts could be reduced further while hitting utilization targets.

Objective	Description	Score
<b>Address Racial Imbalance</b>	All schools less than 20% of districtwide average over the last five years.	Good
<b>Balance Utilization Across all Elementary Schools</b>	All schools within ~10% of districtwide average. Burr remains most underutilized	Fair
<b>Minimize Redistricting Impacts</b>	9% elementary students No impacts to middle or high school students	Good
<b>Student Walker Impacts</b>	Minimal impacts to walking areas (~1% of walking students impacted)	Good
<b>Secondary School Impacts</b>	No changes to MS feeder No changes to HS feeder  No redistricting impacts to MS or HS students No grandfathering necessary	

# Scenario 4

- Maintain 11 elementary school configuration
- Maintain contiguous districts (no satellite zones)
- Address racial imbalance at McKinley
- Balance utilization at all elementary schools
- Provide space for expanded special programs
  - Grow Pre-K classrooms in elementary schools from 4 to 9 classrooms
  - 3 Pre-K classrooms each located at Holland Hill, Jennings, and North Stratfield.
  - Early Literacy Academy shifted from McKinley to North Stratfield

## Scenario 4 Elementary Change Areas

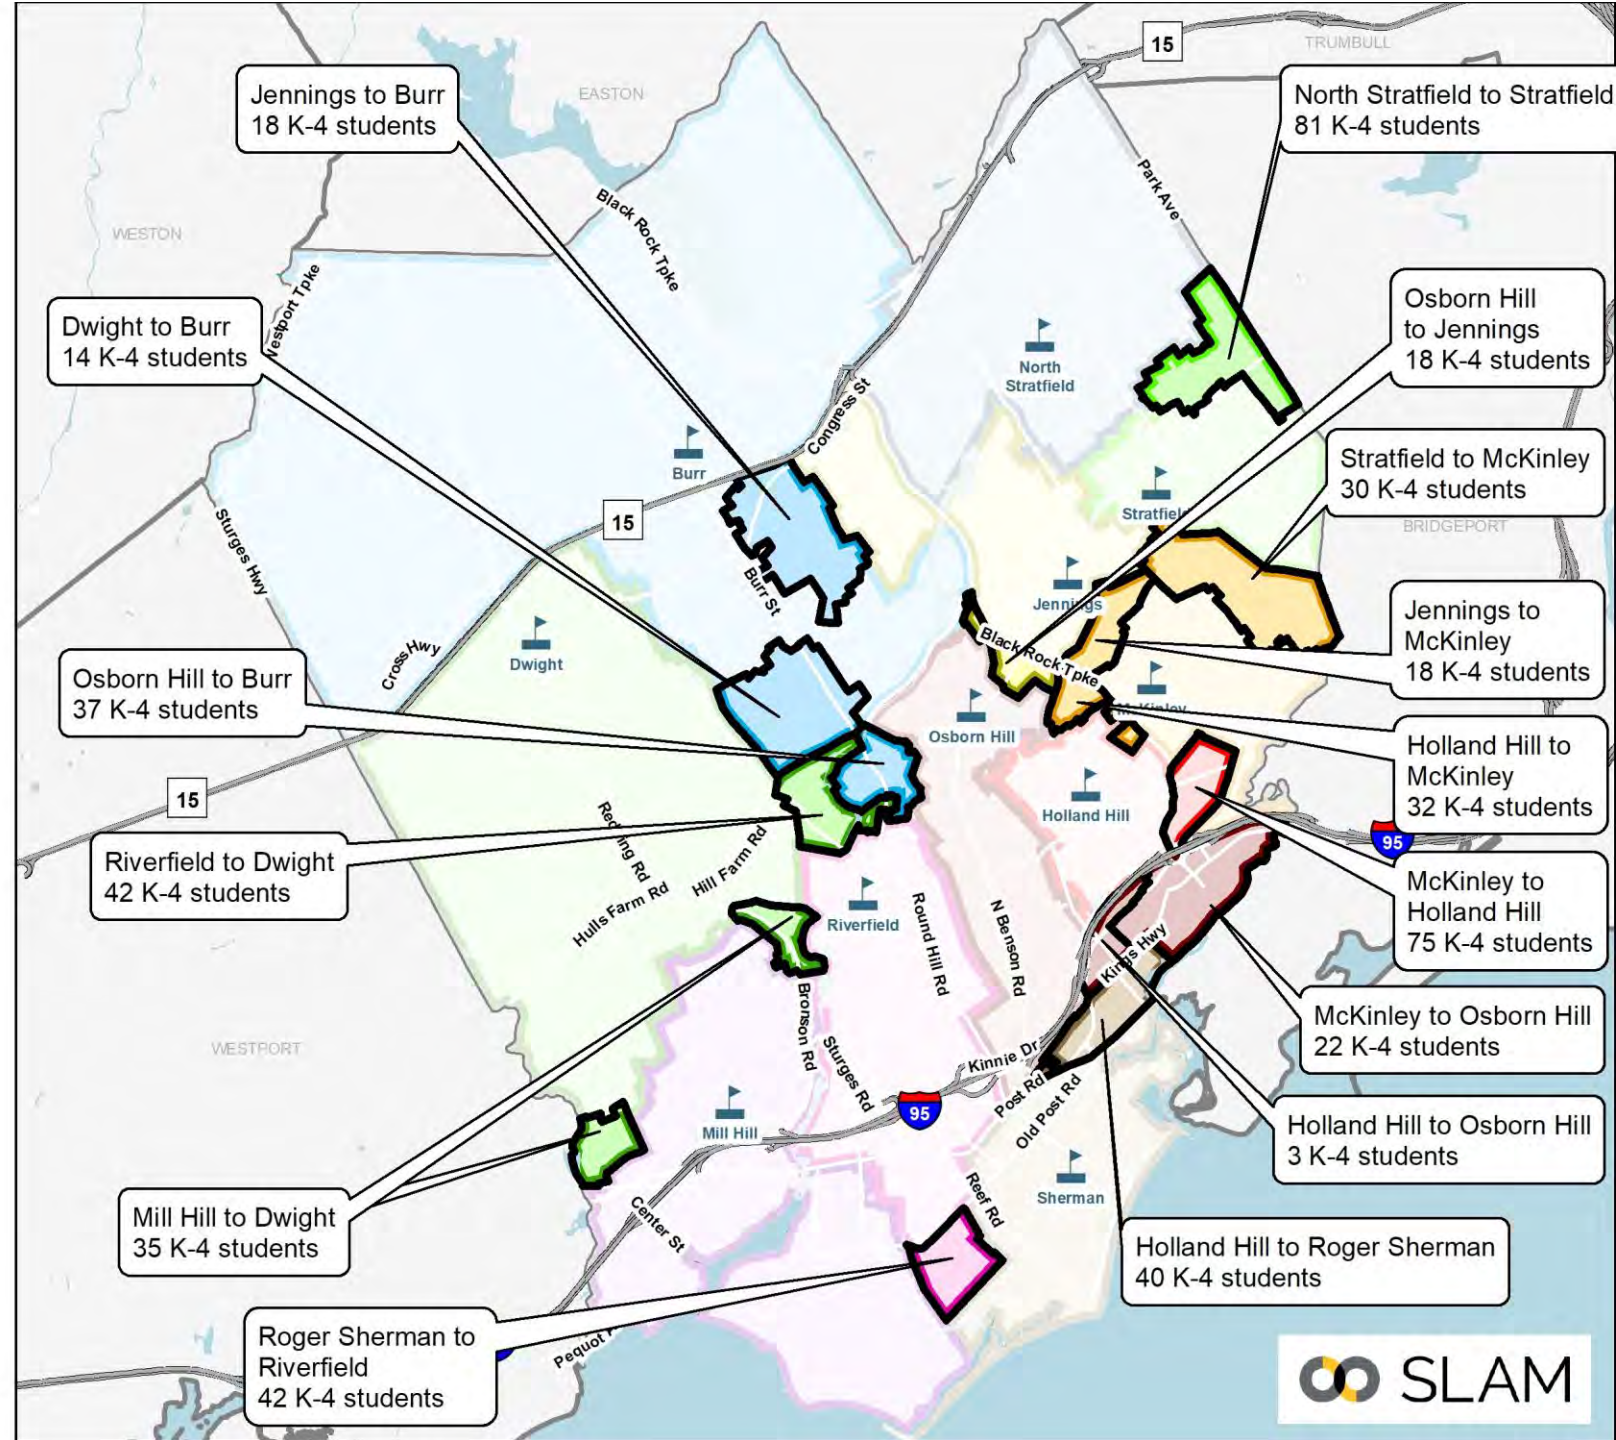

## Redistricting Impacts (K-4):

- ~15% of elementary students
- Several small "pocket" areas moved

## Greatest Share of Impacts to:

- McKinley: 19% of total impact
- N. Stratfield: 13% of total impact
- Holland Hill: 13% of total impact
- Osborn Hill: 11% of total impact

*Note: All students were returned to their zoned schools*

# Scenario 4: Racial Balance

- All schools in compliance with state racial balance law.
- McKinley would have exceeded 20% deviation all seven years, ranging from 20.6% to 22.6%
- Holland Hill also in the impending imbalance category, ranging from 16.2% to 21.4% and would have exceeded 20% deviation for the last two years.

- Shifts additional students from Tomlinson to Roger Ludlowe, resulting in varying enrollment at middle schools.
  - Cohort sizes range from ~290 to 320 at Roger Ludlowe, ~260 to 290 at Fairfield Woods, and ~140 to 160 at Tomlinson.
  - Large bubble class enters Fairfield Woods beginning in 2027-28.
- Shifts additional students into Fairfield Ludlowe, which is projected to average ~150 students more than Fairfield Warde

# Scenario 4: Considerations

- Maintains 11 elementary school alignment.
- All schools would have complied with the state racial balance law over the last seven years, although McKinley and Holland Hill would each exceed 20% deviation multiple years.
  - Consistent with prior redistricting exercises from 2016 and 2020, where you cannot consistently get racial imbalance below 20% while maintaining contiguous attendance zones.
- Would balance utilization, with all schools within ~5% of districtwide average over the next five years.
- Retains contiguous neighborhood-based attendance zones, but results in greater redistricting impacts compared to satellite zone approach.
- Redistricting impacts to ~7% of middle school students and ~5% of high school students.
- Net impacts to ~6% of elementary walkers.

Objective	Description	Score
<b>Address Racial Imbalance</b>	McKinley and Holland Hill racially balanced, but exceed 20% in one or more years	Fair
<b>Balance Utilization Across all Elementary Schools</b>	All schools within 5% of districtwide average for the first 5 years of the projections	Good
<b>Minimize Redistricting Impacts</b>	15% of elementary students	Fair
<b>Student Walker Impacts</b>	Net impacts to ~6% of elementary walkers. Some impacted walkers can walk to new schools.	Fair
<b>Secondary School Impacts</b>	No changes to MS feeder No changes to HS feeder  7% of MS students impacted 5% of HS students impacted	

# Scenario 5

- Maintain 11 elementary school configuration
- Maintain contiguous districts (no satellite zones)
- Address racial imbalance at McKinley
- Balance utilization at all elementary schools
- Preserve existing high school attendance zones
  - Only shift students within the existing High School feeders
- Build out special program space for Pre-K and CLC as part of future renovation projects at Dwight and Jennings
  - Add 3 Pre-K classrooms and 2 CLC classrooms at Jennings
  - Add 3 Pre-K classrooms and 2 CLC classrooms at Dwight (CLC shifts to Dwight from Mill Hill)

## Scenario 5 Elementary Change Areas

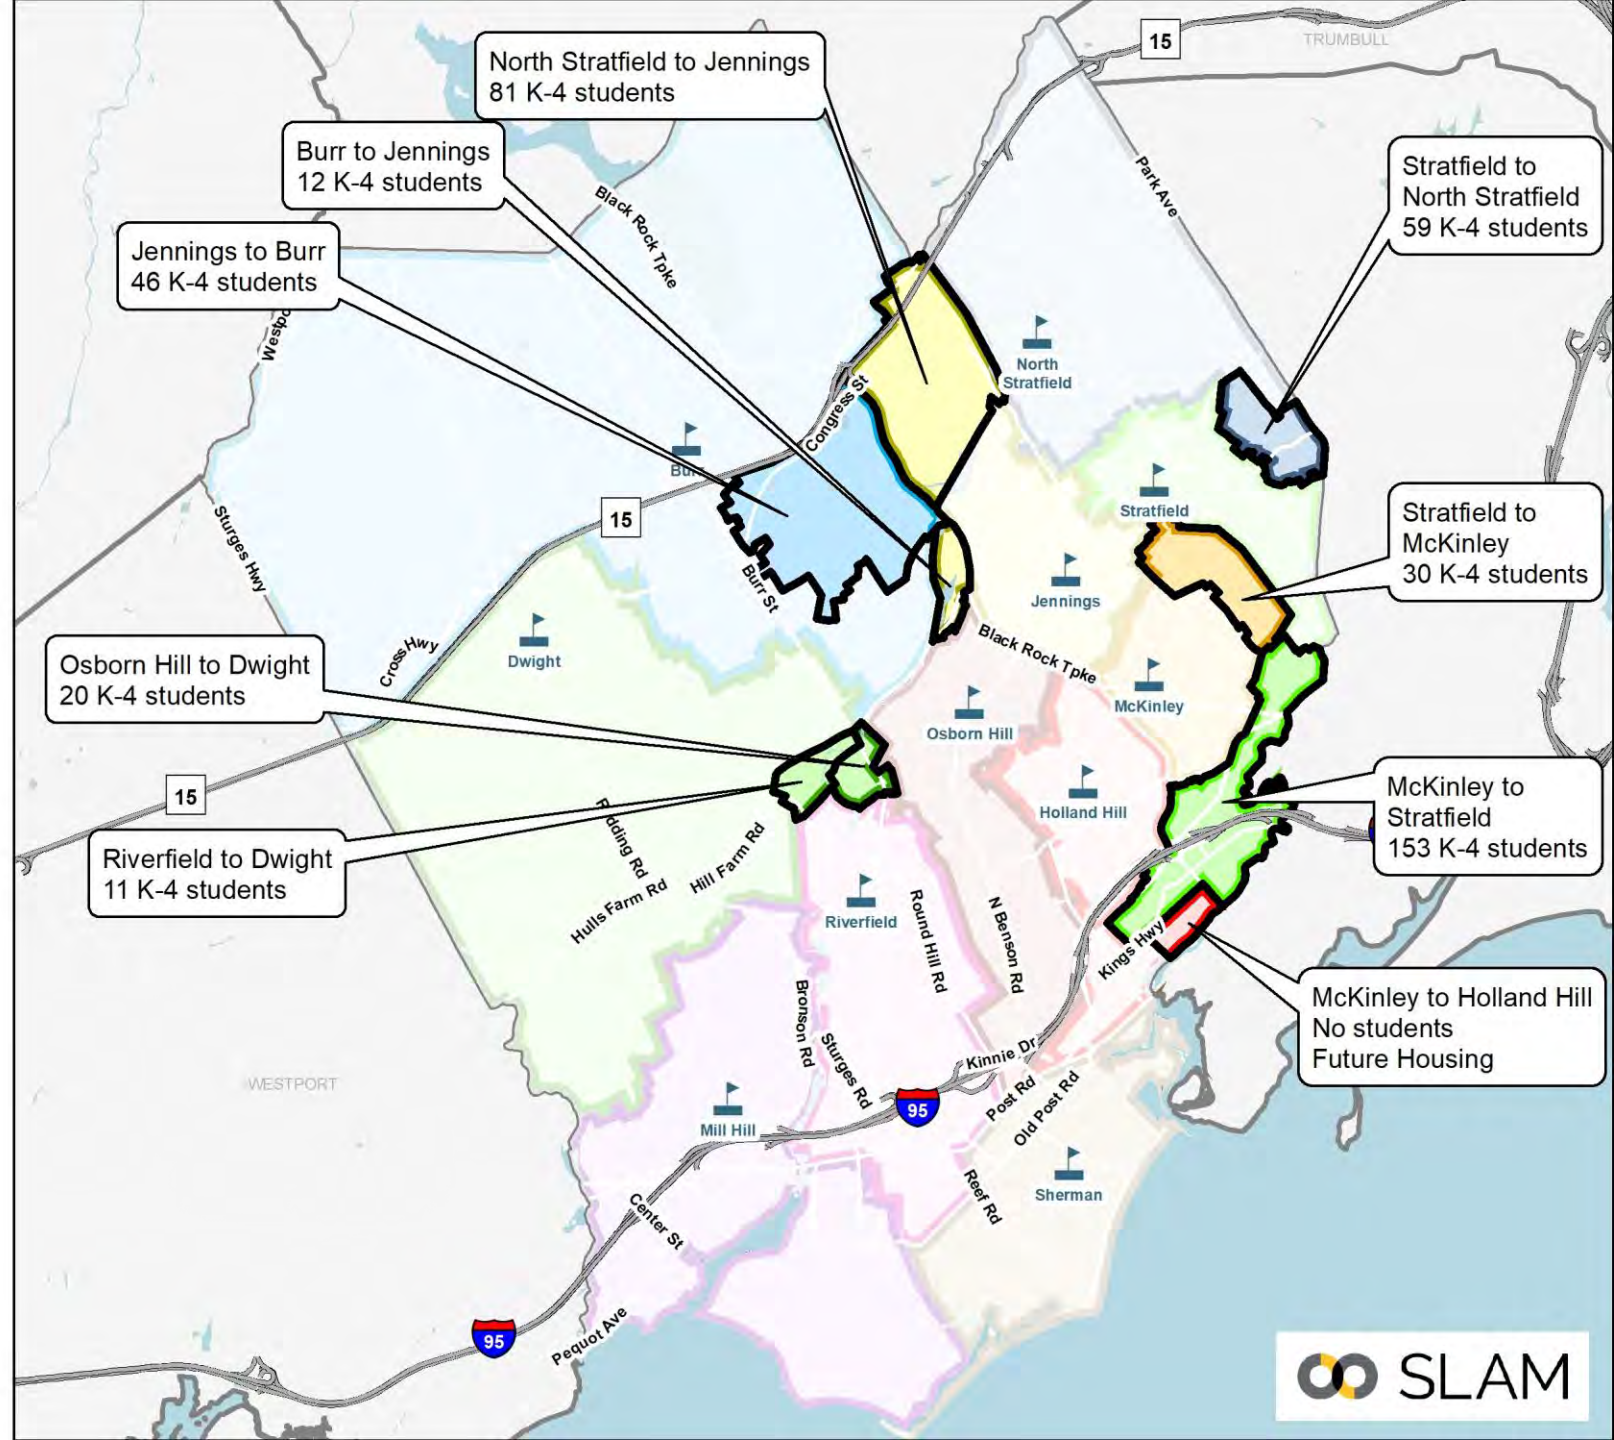

## Redistricting Impacts (K-4):

- ~12% of elementary students
- Several small “pocket” areas moved

## Greatest Share of Impacts to:

- McKinley: 34% of total impact
- N. Stratfield: 16% of total impact
- Jennings: 11% of total impact

*Note: All students were returned to their zoned schools*

  - Net gain of 8 classrooms (leverage existing classrooms at Dwight for CLC)
- Shift CLC from Mill Hill to Dwight following completion of renovation project

# Scenario 5: Racial Balance

- All schools in compliance with state racial balance law.
- McKinley would have exceeded 20% deviation six of the last seven years, ranging from 19.2% to 24.0%
- Holland Hill also in the impending imbalance category, ranging from 13.4% to 16.2%

Reminder that 100% utilization means the building is at its operational target of 21 students per available classroom. This represents 87.5% of the maximum capacity.

- Overall utilization increases to about 90% of operational target by the 2031-32 school year.
- Low utilization at McKinley – space could support growth of a special program open to all FPS students?**
- No schools projected to exceed 100% of their operational target over the next ten years, although Holland Hill operates at or near 100% for several years.

  - Large bubble class enters Fairfield Woods beginning in 2027-28.
- Fairfield Ludlowe projected to be slightly larger than Fairfield Warde

# Scenario 5: Considerations

- Maintains 11 elementary school alignment.
- Requires additions of specialized space to Jennings and Dwight as part of future renovation projects in order to help minimize impacts.
- All schools would have complied with the state racial balance law over the last seven years, although McKinley and Holland Hill would each exceed 20% deviation multiple years.
- Impacts ~12% of elementary students
- McKinley is underutilized – could support a districtwide program that provides greater enrollment and racial balance?
- Redistricting impacts to ~3% of middle school students. No High School impacts.
- Net impacts to ~3% of elementary walkers.

## High School Feeder Pattern

No changes to the High School Feeder pattern.

# Scenario 6: Considerations

- Can be implemented, regardless of scenario.
- Under current elementary attendance zones, would shift slightly more students into Fairfield Woods.
- Loss of some Fairfield Woods walkers offset by creation of new Tomlinson walking community.
- Significant redistricting impacts. Would impact ~26% of middle school students if implemented through one-time redistricting.
  - Impacts could be reduced or eliminated with grandfathering or multi-year “phase-in.”
- Does not impact high school attendance zones
  - Tomlinson would become the split school for high school, with students split between Warde and Ludlowe as they move into 9<sup>th</sup> grade.
