Re: Changes to the Health and Physical Education Curriculum Implementation

In the spring of 2023, the health and physical education departments met regarding anticipated changes to their curriculum implementation. Currently (2023-2024) students are required to enroll in a .25 credit health and a .25 credit physical education class each year. In doing so, students meet the FPS [graduation requirements policy 6146](#) when the courses are successfully completed (i.e., 1.0 credit(s) in each).

In order to better schedule the health and physical education credit each year, starting in the 2024-2025 school year, we will offer half (.50) credit course each year. This will allow students to take additional electives throughout high school.

The 2024-2025 school year will be a transition year. Thus, students currently in grades 9 and 11 will be offered the quarter credit next year. This will complete the current requirements of the .25 or .75 accumulated credit(s). Students entering grade 9 and 11 next year (current grade 8 and 10 students) will only be offered the half credit course next year.

Please see below the course offerings for physical education and health beginning in SY 24-25:

**Health**
