LIBRARY DISPLAY AND PROGRAM

6161.14

Library displays and student programs are critical in serving as resources for voluntary inquiry and the dissemination of information and ideas, as well as promoting free expression and free access to ideas by students.

The Fairfield Board of Education recognizes that library displays are provided for the interest, information, and enlightenment of all students, represent a wide range of varied and diverging viewpoints, and provide access to content that is relevant to the research, independent interests, and educational needs of students.

The Fairfield Board of Education acknowledges that a school library media specialist is professionally trained to curate and develop displays and programs that shall provide students with access to the widest array of age-appropriate and grade-level-appropriate library and other educational materials.

Through this policy, the Board of Education ensures that all library materials shall be evaluated and made accessible in accordance with the protections against discrimination set forth in section 10-15c of the general statutes, including, but not limited to, discrimination based on race, color, sex, gender identity, religion, national origin, sexual orientation, or disability. The Board shall review and update this policy as necessary every five years.
